

## The Yun Family's Ninth Child is an Imp! Chapter 1251

Yin Xinlian looked at Yun chujiu struggling like a headless fly inside the array formation and felt very proud. B \* TCH, I will exhaust you to death even if I have to tire you out! The crowd below the life and death arena immediately exclaimed, "This is the Yin family's blood sacrifice seven kills array formation. It is one of the Yin family's most powerful attack arrays. I'm afraid Yun Chujiu will have to answer for it!" "AH? So this is the blood sacrifice seven kills formation? I've heard that I haven't seen it before. Yun Chujiu is not bad. She has persisted for such a long time, but the Yin family still has a deep foundation!" "That's right. After Yun Chujiu's defensive spirit tools are exhausted, I'm afraid she will die in the formation." .. Dean Huangfu was in a difficult position at this moment. Naturally, he couldn't just watch as Yun Chujiu was killed by Yin Xinlian. Putting everything else aside, if Yun chujiu really died, whether it was his excellency or Young Master Wuji.., even elder Jiang had to tear down Tianyuan Academy. But as the dean of Tianyuan Academy, he couldn't break the rules in public. What should he do? Just as Dean Huangfu was in a difficult position, his identity jade plate started to tremble. Dean Huangfu sent his spiritual sense into it, Ji Sha's voice came from inside, "Dean, if Yun Chujiu is no match for me, I will force the teacher in charge to close the spiritual energy shield. Please Save Yun Chujiu." Although Dean Huangfu felt that this method was not very good, after all, Ji Sha could only be fired after doing so. Therefore, dean Huangfu replied to Ji sha, "Let's wait and see for the time being. Don't be in a hurry to make a move.". At this moment, Yun Chujiu still had not thought of a way to break the formation. The golden-backed mountain mandrakes were still attacking Yun chujiu continuously. Just when Yun chujiu was frowning, she suddenly had a thought. This life and death arena had a spiritual energy barrier, and it had a height. Therefore, this formation could only be limited by the height of the spiritual energy barrier. As long as she thought of a way to raise it.., she could touch the barrier of the formation. At that time, she could break the barrier and break the formation. Therefore, everyone was stunned to see Yun chujiu continuously throwing big rocks and big sacks. At first, everyone thought that Yun chujiu was using rocks and sacks to attack the golden-backed mountain mandrill. They thought to themselves, isn't this ridiculous? These things had no lethality to the golden-backed mountain mandrill at all. However, the crowd slowly realized that something was wrong. Yun Chujiu's things did not hit the golden-backed mountain mandrill. Instead, they were scattered all over the place. The sacks and stones were scattered all over the place like artificial mountains. "Yo, could it be that this Yun Chujiu thinks that she won't live long, so she emptied out all the things in her storage ring?" "I don't think so. The things she threw out are all worthless." "Maybe she threw out the worthless ones first before throwing out the valuable ones. Speaking of which, this blood sacrifice seven kill array isn't that easy to break. It's basically impossible for her to live." .. Suddenly, someone exclaimed, "Look! What is Yun chujiu doing?" Everyone looked up and saw Yun chujiu jumping onto the highest pile of miscellaneous items. Then, she shot out purple needles continuously, and the purple needles started to explode. Dean Huangfu praised her in his heart. This little girl was really smart. She threw those junk to find the barrier. If it was somewhere else, this method would definitely be useless. However, the life and death platform had a protective barrier of spiritual energy, and the maximum height of the formation could only be lower than the protective barrier. Therefore, the little girl actually found the barrier of the formation by piling up junk, however, could she break the barrier?
