

The Yun Family's Ninth Child is an Imp! Chapter 1259

"Transcendent-grade! Transcendent-grade! This is a transcendent-grade talisman seal! You drew a transcendent-grade talisman seal on your third try! My precious disciple! You really are my precious disciple!" If it wasn't for the fact that Yun Chujiu was a girl., the dried-up old man would probably hug Yun Chujiu and kiss her to express his excitement. Yun chujiu shuddered at the words of the dried-up old man's "Precious disciple". "Master, transcendent-grade it is!" "Why are you so excited? Isn't it normal for a genius like me to draw a transcendent-grade talisman?" The corner of the old man's mouth twitched and he decided to restrain his excitement. This brat was already so cocky even if he didn't praise her. If he praised her a few more times, she would be able to fly to the sky! "Yes, I was indeed a little excited just now. Actually, it's nothing much. It's just a transcendent-grade talisman! I'll teach you some talismans that can be drawn at the spirit sect level." The old man tried his best to appear calm. Yun Chujiu said leisurely from the side, "Master, Your Talisman Brush is upside down!" Only then did the dry old man realize that his hand was dipped in the demon beast blood. He forced himself to remain calm and said, "HMPH! I want to test the purity of these Demon Beast Blood." Yun chujiu curled her lips and did not point it out. She continued to learn talisman drawing from the dry old man. The dry old man felt that it was not a good thing to have such a heaven-defying disciple. This was because he could not show off his master's prowess at all. He knew how to draw talismans as soon as he taught them. Ah, where should he put his old face? Back then, he was also known as a genius, but he was not that perverted! Not only did she know how to draw talismans as soon as she learned them, she could draw a transcendent-grade talisman twice. Was she still human? ! She was a monster! In just one afternoon, the dry old man realized that he had nothing left to teach about talismans. The remaining talismans could only be drawn by those above the level of a spirit saint. "Master, didn't you say that this talisman seal was extremely difficult? I feel that it isn't as difficult as drawing your portrait. If I had known this would happen, I would have learned how to draw talismans a long time ago! "Sigh, how many spirit stones did I lose!" Yun Chujiu felt that her thunder sect could only sell medicinal pills, in the future, she could sell talismans. Yes, the next time she rested, she would ask an Feng to send her talismans to the Thunder sect to be sold. Hearing Yun Chujiu's words, the dry old man opened his mouth, he gritted his teeth. "Humph! What's The Big Deal? ! Talismans are no different from painting. If you know how to draw, it's easy for you to learn talismans! Go back and strengthen your foundation. I'll teach you how to refine refined iron puppets in a few days." Yun chujiu curled her lips and said, "Master, according to what you said, those who know how to draw can become Talisman Masters, right?" "Don't argue with me! I still have things to do. Get lost, get lost!" The dry old man said with a stern look. Yun chujiu pursed her lips and left. When the dry old man couldn't see Yun Chujiu, he laughed so hard that tears came out! A GENIUS! She was definitely a genius! They never thought that he would pick up such a precious disciple. Although her spiritual power was still very weak, she would definitely be a heaven-defying existence in the future. Yun Chujiu returned to her courtyard and sent a voice transmission talisman to an Feng. "Little Lunatic, help me prepare ten sacks of Talisman Paper and dozens of talisman pens." An Feng, who had received the voice transmission talisman, was dumbfounded. Why did Miss Jiu always insist on getting the things she wanted? In the past, it was still reasonable to ask for those things, but what did she mean by asking for ten sacks of Talisman Paper this time? Could it be that she had started

learning talisman? Was she planning to practice? If she was planning to practice, it was understandable. After all, learning talisman was not that easy, and it did require a lot of talisman paper. But what the hell were dozens of talismans pens? Could it be that if you practiced drawing talismans, you could waste dozens of talismans pens? Were you eating pens?
