

## The Yun Family's Ninth Child is an Imp! Chapter 1275

A quarter of an hour later, the blind golden-spotted wind blade leopard was killed by the two little ones, and the remaining golden-spotted wind blade leopard was also half-dead by Yun Chujiu. Yun chujiu simply threw a sleeping powder at the golden-spotted wind blade leopard. The golden-spotted wind blade leopard was already half-dead, so it was knocked out in an instant. "The two of you keep an eye on it. If it wakes up, continue scattering the sleeping powder. I'll comb through the lightning spiritual force in my body," Yun Chujiu said to the two little ones. The two little ones nodded in agreement. Yun chujiu began to meditate with her legs crossed, combing through the raging lightning spiritual force in her body. Two hours later, the lightning spiritual force in her meridians all converged into her dantian and was devoured by the three malefactors. Yun Chujiu felt that she had come back to life. Yun chujiu ate some more food and kept the two little ones. Then, she activated the jade token and left the trial tower. At this moment, Wu Yun was still gathered above the trial tower. The immense pressure forced Dean Huangfu and teacher Mou to hide thousands of feet away. If they weren't too worried about Yun Chujiu, they would have hidden even further away, they found it difficult to breathe even when they were thousands of feet away. Just as the two of them were watching, they saw Yun chujiu being ejected. Dean Huangfu thought to himself, dear ancestor, why did you hide in there for so long? It hasn't even been four hours, why did you come out? The Heavenly Lightning hasn't left yet! Just as Dean Huangfu was thinking this., he saw Yun chujiu pointing at Wu Yun in the sky with her hands on her hips and scolding, "Damn it! It's not that easy to kill me! Come on! Kill me! If you don't kill me today, you will become grandsons!" Old Yun was still fine in the sky, but the new Wu Yun was furious. How Dare You Challenge Our Heavenly Lightning? I'll definitely kill you today! Boom! Boom! Boom! Countless bolts of heavenly lightning struck Yun Chujiu again. Yun chujiu was more confident now. Since she couldn't take it anymore, she could enter the trial tower again. After resting, she could come out again. These bolts of heavenly lightning wouldn't work. Sooner or later, the spiritual power of the Lightning would be exhausted, it's better for me to absorb more lightning spiritual power. Another six hours passed. Yun chujiu felt that her meridians couldn't take it anymore, so she entered the trial tower again. Yun chujiu still used the same method as last time. She didn't kill the Demon Beast completely. Then, she used this time to comb the lightning spiritual power. After resting enough, she would come out again to provoke the heavenly lightning bolts. After doing this twice, Yun Chujiu became more and more lively, but the dark clouds in the sky became more and more dispirited. Those familiar clouds had long lost their fighting spirit. This was a pervert. Their Heavenly Thunder was powerful, but it could not be compared to a pervert! This guy simply could not be hacked to death. It was already good enough that they did not roast the spiritual potato qi today. Those new dark clouds also completely stopped eating. Wu Yun, it really hurt their self-esteem. No wonder this stinky girl dared to challenge them. It turned out that she was not a human at all. She was a monster! And that damned trial tower, aiding the wicked. It was really detestable! After returning, they would definitely pin all the blame on it. The Trial Tower's tool spirit fiercely sneezed twice. Damn it, who was scolding it? Could it be the little girl? It had already let her in, and she was still scolding it? Shameless! When the Wu Yun in the sky saw that there was no longer any possibility of killing Yun Chujiu, it could only float away unwillingly. The Moon and stars once again

revealed the layer of clouds. The ground was clear and bright. If one ignored the few deep pits on the ground., it was no different from a normal night.
