

The Yun Family's Ninth Child is an Imp! Chapter 1278

Yun chujiu was so angry that she kicked the Xiao Heiniaio away, the Xiao Heiniaio flapped its short wings and laughed non-stop on the tree. "Master, when we fight in the future, they will release a tiger, an eagle, and a wolf. With a poof, you will release a pig, and it will be a small piglet. That scene is simply too beautiful! Hahaha! Damn, I'm dying of Laughter!" Yun chujiu was so angry that she took off a shoe and threw it at Xiao Heiniaio. Xiao Heiniaio was very smart, so of course it could not hit it. "Master, don't hit me, I am helping you to adapt in advance! When you use your spiritual energy, it will definitely cause a sensation, even more so than your little purple needle!" Xiao Heiniaio stared at it with its bean-like eyes and quibbled. Yun chujiu glared at it and sulked! F * ck! Xiao Hei was right. In the future, when she fought with others, they would release majestic beasts and birds of prey. She would release a F * cking pig, and it was a F * cking piglet. That sour feeling was simply too intoxicating! She decided that in future battles, she would use the little purple needle. As for the pig, she would forget about it! Thus, a few days later, when teacher Ji Sha asked Yun Chujiu to learn the intermediate level materialization of spiritual power, Yun chujiu shook her head like a rattle-drum. "I didn't learn it! I might have been too anxious. Let's talk about it in the future." Teacher Ji Sha looked at Yun Chujiu's back suspiciously. It shouldn't be. With Yun Chujiu's comprehension and spiritual power, how could she not learn it? It was really strange. Yun chujiu sank into deep sorrow. Could it really be because she was greedy that she materialized a piglet? When she learned a high-level materialization technique, wouldn't she materialize a big pig with intelligence? Ah, ah, she was going crazy! The Wolves, tigers, and leopards that she materialized would use their claws and sharp teeth to bite each other. What about her? Was she trying to make the Piglet Act cute? Cute to death? No, she would definitely rematerialize an animal and definitely not this piglet! Yun chujiu started practicing persistently. Then, she sadly realized that other than the piglet that she materialized being more lively, there was no other change at all. This fellow gave up. Damn it! So Be it! Zhu Bajie was also quite powerful! Although he was lazy, greedy, and lecherous, Wu Wu, why did it seem like he was talking about her? Yun Chujiu decided to do something else to divert her grief. Unfortunately, the dry old man had been studying the puppet and had no time to pay attention to her. This fellow had no choice but to go to the Spirit Beast Garden to practice beast taming techniques. Other students practiced with demonic beasts that had lower spiritual power than themselves. This guy specially picked demonic beasts that had higher spiritual power than himself to practice with. This was because this guy felt that he had to find someone stronger than himself to find help. Otherwise... ! Why would he waste his energy? ! However, those demonic beasts with higher spiritual power would naturally not be willing to be controlled. Unless Yun Chujiu threatened or tricked them, there was no way to establish a spiritual connection. Yun chujiu once again sank into deep sorrow. Damn it, if she was facing an enemy, how would she have the time to trick them? She had to find a way to directly establish a spiritual connection. Yun Chujiu's idea was good, but she never found it. Just like that, it reached the end of the first grade semester. No students would be eliminated this semester, so everyone was very relaxed. The academy arranged for all the students to go to the nine serenities crypt to train. The nine serenities crypt was divided into nine levels. The first to third levels were suitable for students below the level of a spirit saint, the fourth to sixth levels were suitable for students of the level of a spirit saint, and as for the demonic beasts in the seventh to ninth levels, they were all equivalent to the level of a spirit

paragon, the level of spirit energy of the students was simply not enough, so they could only stop at the sixth level. Actually, it was said that the nine serenities crypt still had the tenth level, and there was a huge treasure hidden inside. However, no one had ever broken through to the eighth level, let alone the legendary tenth level.
