

## The Yun Family's Ninth Child is an Imp! Chapter 1285

With the roar of Lie Yan's three-tailed Fox King, Lie Yan was slightly distracted. Yun chujiu took this opportunity to throw a stack of super-grade explosive talismans at lie Yan. Lie Yan managed to dodge a few of them, but it was still hit by a few of the explosive talismans, causing continuous explosions. Yun chujiu did not check whether the cave fire tiger was dead or not. Instead, she put away the three-tailed Fox King of Lie Yan and continued to run forward. She understood that the three-tailed Fox King of Lie Yan's move could only be effective when used unexpectedly, therefore, she could not let anyone see Xiao Hong first. Yun chujiu discovered that the plants in the cave on the seventh floor were even more luxuriant. It even gave people the illusion that they were in a forest. Some of these plants were known to Yun Chujiu, and some were not even seen in books. However, it was understandable, after all, there were fewer people who had made it to the seventh floor. Those with low spiritual power did not dare to come in, and those with high spiritual power would rather go to other places to train than come here. After all, other places were easier to escape from, but this lousy place had a time limit! Moreover, if they were not careful, they might be buried underground. Who would come? ! Just as Yun chujiu was indulging in her wild thoughts, two black-horned bulls of the cave on the twenty-sixth floor pounced on her. When they saw Yun chujiu, they were quite surprised. How did such a weak chicken come to the seventh floor? Were all the demon beasts on the first six floors dead? When Yun Chujiu saw the two black-horned bulls, she burst into laughter. It seemed that the red cloth she asked an feng to prepare was not in vain! "Hey! We have no worries and no grudges. Let Me Go!" Yun Chujiu said with a smile. The two black-horned bulls curled their lips in disdain. Let You Go? We were planning to treat you as a snack. We are different from other demon bulls. We Eat Meat! The two black-horned bulls rushed towards Yun Chujiu at the same time. Yun Chujiu saw an open space in front of her and ran over with all her might. The two black-horned bulls chased closely behind. Yun Chujiu took out a big red cloth with a smile and waved it at the two violent bulls. As expected, the two black-horned bulls in the cave were driven by instinct and rushed towards the red cloth in Yun Chujiu's hand. Yun chujiu kept dodging their attacks and started to scatter the sleeping powder on the red cloth. The two black-horned bulls in the cave were blinded by anger. All they saw was the red cloth and they had to tear it apart. An hour later, the two black-horned bulls in the cave fell to the ground. Their huge bodies smashed two deep pits into the ground. Yun chujiu pursed her lips. No wonder it was called a bull's temper. This bull was really stubborn! However, this could not go on. There were many demonic beasts in the cave. Even if she was tired, she would die from exhaustion. She did not even have time to rest, let alone pass the ninth level. There was no need to think about the tenth level. Yun chujiu rubbed her chin and started to think. At this time, one of the black-horned bulls in the cave showed signs of waking up. Yun chujiu picked up the rolling pin and was about to slap the black-horned bull to death, suddenly, an idea flashed through her mind. Haha! She was someone who had learned the beast taming technique. Now that the two black-horned bulls in the cave were under her control, she could establish a spiritual connection with them and then use the beast taming technique to control them. With the help of the two black-horned bulls in the cave, she could easily subdue the demon beasts and then control them, and then catch the demon beasts..
