

The Yun Family's Ninth Child is an Imp! Chapter 129

"The few of you go to the dormitory to settle down first. You will officially start work tomorrow. ". Our Big Kitchen was made of iron and water, so this dormitory was the richest. The three rows at the back were all dormitories. Those who had activated the array in the courtyard had already been occupied. You can choose any of the remaining rooms. " Old Huang pointed to the room at the back of the big kitchen and said.

Yun Chujiu and the others thanked him. Then, they passed through a bluestone road and came to the backyard of the kitchen.

The kitchen was close to the back of the mountain. Although the spiritual energy was far inferior to the spiritual energy above, to Yun Chujiu and the others, this place was like heaven. The spiritual energy here was much richer than the spiritual energy in Ye city. It was simply much stronger!

Seven people were selected. In the end, they chose the seven small courtyards in the third row.

Only Yun Chusi had activated the array formation in the courtyard. The other six people were unable to activate the array formation in the courtyard because they could not release their spiritual energy. However, they did not have anything valuable, so they were not afraid of people stealing.

After she had tidied up, it was already dark. Yun chujiu thought of a very important question. F * ck! They had not eaten dinner yet! They had been hungry for a whole day!

Therefore, this guy stretched his neck and shouted, "Brothers, sisters, let's go and eat! "

Yun Chusi and the others were also hungry. Therefore, the seven of them came to the big kitchen in a mighty manner. Then, they realized that the big kitchen had already activated the array formation. Apparently, it had been closed.

“Why does this big kitchen have an array formation to protect it? Can Someone Steal Things?” Yun Chulu asked in confusion.

“Maybe there really was such a thing in the past, so they created an array formation. After all, the ingredients here are all spirit vegetables and spirit rice. They are also very valuable outside!” Yun Chusi thought for a moment and said.

“Then what should we do? We didn’t bring any dry rations. Ah, this is bad! When we entered the Ling Hua sect, those few horses are still in foster care at the inn. What a waste!” Yun Chuqi stomped her feet. What a miscalculation!

“Seventh sister, can you be a little more promising? It’s just a few horses. When I’m rich in the future, I’ll Get You a spirit beast to ride on!” Yun Chujiu said with a smile.

Yun Chuqi glared at her. “Let’s not talk about riding spirit beasts. If you can fill our stomachs now, I’ll be thankful to the Heavens!”

Yun chujiu rolled her eyes. “What’s so difficult about that? As the saying goes, one depends on the mountain to eat the mountain, and another depends on the water to eat the water. Behind us is the back mountain. I don’t believe that we can’t find food! Let’s Go! Let’s go hunting!”

“Xiao Jiu, is hunting allowed in the back of the mountain? Will we be punished?” Yun Chuwu asked worriedly.

“What’s not allowed? It’s not a spiritual beast. Aren’t you guys hungry? Listen to me, that’s right!” At this moment, Yun Chujiu did not care about the stupid sect rules. It was more proper to fill her stomach.

They bypassed the dormitory area and went straight into the back of the mountain.

“Xiao Hei, the task of finding the prey is up to you. If we can’t find the prey, we’ll have to go hungry!”

Xiao Heiniaoy was so hungry that his heart was stuck to his back. Naturally, he worked hard and soon found a few wind-blade rabbits.

The group caught these few fat rabbits without much effort.

The group skillfully lit a fire and began to roast the rabbits.

Looking at the oily roasted rabbits, the group could not stop swallowing their saliva. They did not care about the burning of their mouths and began to devour the food.

While the group was enjoying their meal, Yun chujiu frowned. Someone was here?

“How dare you! How dare you defy the rules of the sect and roast the meat here! Men! Tie these people up and bring them back to the Law Enforcement Hall!” A gloomy voice said.
