

The Yun Family's Ninth Child is an Imp! Chapter 1331

The palace master's wife sighed. "I still remember the disaster 11 years ago. Compared to that time, it was not too serious this time. The people who came were not too strong. After all, those people had the power of the Netherworld."

Yun Chujiu was confused. She blinked and asked, "Prince Charming, aunt, what happened back then?"

At first, Yun Chujiu called beiming brother in front of the palace master's wife. But once, she called him 'Big Brother', and later, she simply called him 'Big Brother'.

Now, there was naturally nothing to hide. The palace master's wife briefly told her about what happened back then.

The Netherworld Palace was the biggest force in the Netherworld continent, and its status was like the royal family in the secular world.

The Netherworld Hall had always been drooling over the Tian Yuan continent. They felt that the spiritual energy in the Tian Yuan continent was much better than that in the Netherworld continent. Therefore, after many years of careful planning, they had almost succeeded eleven years ago.

First, they sent people to infiltrate the various major factions as spies. Then, they took advantage of the time when the leaders of the various major factions were out or in closed-door cultivation to imprison

all the women and family members of the various major factions. Then, they forced the various factions to submit.., if there was anyone who did not agree to surrender, they would directly kill those people.

Other than that, their spiritual power was also very high. What was even more difficult to deal with was that a portion of them also had the power of the netherworld. Their spiritual power contained the cold energy of the netherworld. Once the cold energy of the Netherworld invaded their bodies, it was difficult to eradicate it. They could only suppress it with their spiritual power.

Hence, the Tian Yuan continent was in an extremely passive situation.

Just when the Tian Yuan continent was in a precarious situation, the 12-year-old di beiming sneaked into the place where the women and their families were being held. Not only did he miraculously save them, but the people from the Netherworld Palace also died, only Vice Palace Master Liu escaped with serious injuries.

However, ever since that time, di beiming was also affected by the netherworld cold qi and suffered a lot of torture.

As for how di beiming had killed those people back then, even di beiming himself did not know.

At that time, he was also eager to save his mother. In addition, he was still young and fearless. He actually managed to sneak in. However, he was quickly discovered and was surrounded and beaten up. He had no recollection of what happened after that, when he woke up, he discovered that the ground was filled with the corpses of the Netherworld Hall Guards. Then, he saved them all.

However, before that, Xue Wuji's mother's old illness had relapsed. As she did not receive timely treatment, she passed away.

After hearing this, Yun chujiu guessed, "Prince Charming, could it be that an expert helped you but did not want to expose his tracks, so he left?"

Di beiming nodded, "We also guessed the same. After that, I took the old man of the Heaven Lake as my teacher and entered the Tian Yuan Academy to study. I wanted to become stronger and be able to protect my family. "However, I almost made the same mistake again. Luckily, I have you, Little Jiu. Otherwise..."

"Prince Charming, what are you talking about? Am I not your family? Aunt is your mother and is not far from my mother. I naturally have to protect her. Aunt, don't you think so?" Yun Chujiu said with a cheeky smile as she hugged the palace lord's wife's arm.

The palace Lord's wife scolded jokingly, "You Little Scoundrel! Although you saved me, you still have to enter the top 100 of the Prodigy roll. Otherwise, I will always be your aunt!"

Di beiming was instantly excited when he heard that. Did his mother accept little nine? The Prodigy roll was not important. As long as his mother truly accepted little nine, it was better than anything else.
