

The Yun Family's Ninth Child is an Imp! Chapter 1342

Dean Huangfu continued, "There are many demonic beasts and spiritual herbs in the great wilderness mystic realm that are only available in the ancient times. Therefore, this trial will not only increase your spiritual power, but you will also reap a bountiful harvest.

"Of course, the Great Wilderness Mystic realm is also very dangerous. If you encounter danger, you can activate your identity Jade Tokens. At that time, you will be teleported out. Don't be greedy and lose your lives. "The trial period is one month. At the end of one month, you will be teleported out without activating your identity Jade Tokens."

After Dean Huangfu gave a simple speech, everyone went to the so-called great wilderness mystic realm according to the class order.

The place where the Great Wilderness Mystic Realm appeared was not far from the place where Yun Chujie found the nine-tailed Fox was trapped. The entrance was suspended in mid-air. Before entering, everyone could feel an ancient and desolate aura.

The students were very excited. They had actually encountered such a once-in-a-thousand-years opportunity. They were really lucky!

It was said that the spiritual energy in the grand desolate realm was much denser than outside. Even if they cultivated inside, it would still be very good. Moreover, there might even be some opportunities!

If they could pick up some extinct high-grade spirit herbs, then they would make a huge profit!

If they were lucky enough to catch an ancient exotic beast as a spiritual pet, it would be a huge advantage.

Yun chujiu was not very happy, because this guy felt that if it was not for the appearance of the Great Wilderness Mystic Realm, the gigolo would not have left. It was all because of this damn great wilderness mystic realm. He did not come out early or late, but he had to come out at this time.., “How Annoying!”

After everyone had entered, Yun Chujiu casually jumped in as well. This time, there was nothing unusual. Either the Great Wilderness Mystic Realm did not have a Qi ling, or the Qi Ling was a sensible person.

After the white light flashed, Yun Chujiu realized that the scene in front of her was a beauty she had never seen before.

In the midst of the Clouds and mist, there were strange flowers and plants. There were even pools of water that were emitting steam. It was actually a hot spring.

Yun chujiu walked to the side of the hot spring curiously. There were strange little fish swimming around inside, looking exceptionally cute.

The Little Fish was bright red all over, but there was a golden pattern on the belly of the fish. What was even more peculiar was that there were two claws on its belly, which were paddling around in the water.

Yun Chujiu got playful and took out a piece of demon beast meat. She was ready to throw it into the water to play with the fish, but she didn't expect the fish to jump out of the water as soon as she took out the demon beast meat, she opened her mouth, revealing the sharp teeth inside, and went straight for the demon beast meat in Yun Chujiu's hand.

Yun chujiu was shocked and quickly let go. After the demon beast meat fell into the water, it was completely eaten by the fish in just a few seconds.

Yun chujiu could not help but feel a chill on her back. These small fish looked harmless, but she did not expect them to be so ferocious. They must have jumped up when they smelled the blood of the demon beast meat. It was better for her to leave as soon as possible.

Just as Yun Chujiu was about to leave, the ground began to shake. Yun chujiu quickly hid behind a bush.

A huge demon beast walked over. Yun chujiu had seen this kind of demon beast in the ancient Demon Beast illustration in the library. It was a wild single-horned violent bull. It was an ancient demon beast of the twenty-fifth level, equivalent to the first level of the spiritual venerable realm of a human cultivator.

The Savage horned violent bull walked to the edge of the pond. It was probably going to drink water. Yun chujiu couldn't help but wonder. Wasn't this Savage Horned Violent Bull afraid that the strange fish would bite off its tongue?

What happened next shocked Yun chujiu!
