

The Yun Family's Ninth Child is an Imp! Chapter 1345

By the time the wild ox finally realized that they were in a fight, Yun Chujiu's purple needles had arrived!

Several purple needles shot into its eyes. Along with the cracking sound, the wild ox screamed and rolled on the ground.

Yun Chujiu threw several purple needles at the Wild Ox. After a few cracking sounds, the wild ox finally died.

Before Yun Chujiu could escape, another wild one-horned ox, which was full of strange small fish, ran back and rushed towards Yun Chujiu.

Yun chujiu hurriedly jumped to dodge. Unexpectedly, the strange small fish on the wild one-horned ox actually jumped towards Yun Chujiu.

Yun chujiu quickly activated her defensive spirit tool. Damn it, I don't have any Bugs on me for you to eat!

What shocked Yun chujiu was that the strange little fish's claws were like suckers that were attached to the defensive barrier. Then, their sharp teeth began to gnaw on the defensive barrier.

The defensive barrier actually started to be destroyed quickly. The teeth of these strange little fish were simply too terrifying.

At the same time, the wild single-horned bull also rushed towards Yun Chujiu. Yun chujiu had no choice but to release her spirit energy piglet again.

The cute spirit Piglet went straight for the wild single-horned Bull's ear and bit it. This wild single-horned bull was also stunned when it saw the spirit piglet, but it was obviously smarter than the other one. It directly used its horn to stab the spirit piglet., after the spirit piglet dodged, it once again bit the wild single-horned bull..

Yun Chujiu felt that this was not good. The Spirit Piglet's spirit energy was limited. It would dissipate after a few rounds. It would be great if there were a few spirit piglets!

Yun chujiu could not help but curse herself for being a pig when she thought of this!

She was using an intermediate level spiritual power materialization technique, not a high level spiritual power materialization technique. She could definitely release a lot of spiritual power little piglets. How could she have missed this point?

Yun chujiu waved her hands left and right repeatedly. As a result, more than ten spiritual power little piglets pounced on the wild one-horned violent bull and the strange little fish on the defensive barrier.

The Savage Horned Bull was completely dumbfounded!

What was going on? Could it be that the little girl was using an intermediate level physical transformation technique? How was this possible? How could an intermediate level physical transformation technique create something that was so agile?

This savage horned bull was obviously as stubborn as the previous one, and at the critical moment, five spiritual piglets pounced on it!

Some bit its ears, some bit its nose, some bit its neck, and some even bit its tail!

Yun chujiu was so angry that she laughed!

It was understandable that it bit other places, but that little piglet that bit its tail, come, come, let me ask you, I Promise I won't beat you to death. What do you mean by biting the tail of the ox?

Yun chujiu looked at the few little piglets of spiritual power on the spiritual power shield again. These few were much more reliable, and directly swallowed the strange little fish. Although they didn't kill it, at least they got the strange little fish to the ground., yun chujiu raised the rolling pin and smashed it flat!

After dealing with the strange little fish, Yun Chujiu shot a few purple needles at the wild single-horned wild bull. The wild single-horned wild bull was badly bitten by a few spiritual piglets, so it was a little slow to dodge, a few purple needles shot into its eyes and nostrils.

Along with the cracking sound, the wild single-horned wild bull struggled a few times on the ground and died.

Yun Chujiu put the two wild one-horned bulls into her storage ring and said delightedly, "I have something for dinner tonight. It's time to rinse the beef!"
