

The Yun Family's Ninth Child is an Imp! Chapter 1358

As the saying goes, the brighter the color of the mushroom, the more poisonous it is. The color of these mushrooms is comparable to the color of the rainbow. One can imagine how poisonous they are.

The strange grass in Yun Chujiu's Dantian immediately clamored to eat the mushrooms. Yun chujiu could not help but curse in her heart. Damn it, she only knew how to eat and eat in one day. She was a guai Cao!

However, compared to drinking the poisonous river water, Yun Chujiu felt that eating these poisonous mushrooms was still acceptable. This fellow would not admit it. In fact, when she smelled the strange fragrance, she was also a little greedy.

Since these were poisonous mushrooms, there should not be any guardian beasts. However, to be on the safe side, Yun chujiu still threw a few small stones to test the waters. After seeing that there was nothing unusual, she moved closer, she used the large kitchen knife to chop off a mushroom and started to chew on it.

Needless to say, this poisonous mushroom tasted fresh and sweet. It actually had a different taste.

After eating a few large mushrooms, yun chujiu started to sweep the area. She used the large kitchen knife to chop off all the large mushrooms. After chopping off all the large mushrooms, she also dug up a few small mushrooms, preparing to plant them in a suitable place to eat them later.

Xiao Mogu was quite conscientious and did not kill all of them. He left the roots of the large mushrooms and some small mushrooms behind so that they could continue to reproduce in the future.

Just as Yun Chujiu was feeling satisfied, she heard a noise from underground. She was so frightened that she immediately jumped onto a large tree next to her.

Suddenly, dozens of colorful vipers crawled out from underground. When Yun chujiu saw these vipers, she suddenly remembered the names of these mushrooms.

These colorful mushrooms were called seven-colored snake mushrooms. The reason why they were called seven-colored snake mushrooms was because these mushrooms were cultivated with the venom of the level 26 desolation seven-colored striped snake.

The seven-colored striped snake cultivated these seven-colored snake mushrooms for its own consumption and for the purpose of trapping its prey. The Demon Beasts were attracted by the strange fragrance of these mushrooms. Once they got close to this place, the desolation seven-colored striped snake would be able to enjoy a good meal.

Originally, Yun chujiu would have discovered these mushrooms once she got close to them. However, today was the day when the small snakes hatched, so the big snakes were waiting for the young snakes to hatch in the underground nest. Therefore, Yun Chujiu took advantage of this opportunity, it almost destroyed their thousands of years of hard work. One could imagine how furious the snakes were.

The snakes soon discovered Yun Chujiu on the tree. A few wild seven-colored striped snakes climbed up the tree trunk, yun chujiu was so scared that she cried out repeatedly, "Aiyu, it's not weird if you don't know. I didn't know this was your private land either. Besides, didn't I not kill all of them? In a few years, these mushrooms will grow again."

The snakes were so angry that they were half dead. It was easy for them to say that. In a few years? A few decades wouldn't be able to grow to the same size as before. The detestable little girl must be killed today.

Of course, Yun Chujiu would not sit still and wait for her death. She used the sticky silk to swing onto another tree. Just as she was feeling proud of herself, something unexpected happened.

The wild seven-colored striped snakes also jumped onto this tree. That's right, they really did jump. The abdomen of these wild seven-colored striped snakes was different from other snakes. They actually had four short claws, but they were too short, yun chujiu didn't see it just now.

This guy immediately panicked. He thought that he could escape from the snakes by relying on the sticky wires, but he didn't expect these damn snakes to jump. This time, it really took her life!

These wild seven-colored striped snakes not only knew how to jump, but they were also very cunning. Yun chujiu quickly discovered their intention. They actually climbed onto the trees around Yun Chujiu, trying to cut off all of Yun Chujiu's paths.
