

The Yun Family's Ninth Child is an Imp! Chapter 1359

Yun Chujiu's heart tightened. What should she do? Although she was not afraid of their venom, she could not stand being bitten!

At this moment, a wild seven-colored striped snake leaped onto the tree where Yun Chujiu was and quickly crawled towards the branch where Yun Chujiu was.

Yun chujiu aimed several purple needles at its eyes and seven inches. The wild seven-colored striped snake nimbly dodged Yun Chujiu's attack and shot out a stream of venom at Yun Chujiu.

Yun chujiu only slightly avoided her face. As for the rest of the area, if you want to spit it out, just spit it out. Although it was a little disgusting, it wouldn't do anything.

Seeing that Yun Chujiu wasn't afraid of its venom, the wild seven-colored striped snake climbed up even faster and spat out its bright red tongue, wanting to Swallow Yun chujiu into its stomach.

Yun chujiu raised her hand, and a small pig of spiritual power pounced at the wild seven-colored striped snake, biting on the seven inches of the wild seven-colored striped snake.

The wild seven-colored striped snake was so scared that it quickly twisted its body. It wanted to shake the small pig of spiritual power down, but the small pig of spiritual power firmly grabbed the snake skin and bit the seven inches of the wild seven-colored striped snake.

The wild seven-colored striped snake immediately fell off the tree trunk in pain. Yun chujiu was overjoyed. She did not expect that the small pig of spiritual power was very good at dealing with poisonous snakes.

However, she was obviously happy too early. The wild seven-colored striped snake just now was just too careless. The other wild seven-colored striped snakes had learned their lesson. When Yun Chujiu released the spiritual energy piglet again., they directly used their venom or tails to disperse the spiritual energy piglet. The spiritual energy piglet had no chance to bite their seven inches.

Yun Chujiu's heart sank to the bottom of the valley again. She gritted her teeth and simply jumped onto the ground. She held up the spiritual power barrier and ran fiercely. The snake swarm was chasing closely behind her.

The forest was densely packed with trees. How Could Yun Chujiu escape from those poisonous snakes? Very soon, she was surrounded by the poisonous snakes in the middle. Yun chujiu cursed in her heart. Damn it, if it weren't for the fact that she couldn't use the talisman here., i could blow you all into pieces in a minute!

Yun chujiu had no choice but to activate all her defensive spirit tools and fight the snakes head-on!

Although Yun Chujiu had killed and injured a few snakes with the help of the little pig and the small purple needle, it was still a drop in the bucket. There were still dozens of wild seven-colored striped snakes crazily attacking Yun chujiu's defensive barrier.

Yun chujju had no choice but to release puppet No. 1, who was severely injured. The snakes were shocked by the sudden appearance of puppet no. 1 and sprayed a large amount of venom at Puppet No. 1, however, the Venom did not harm puppet No. 1 at all. Two sharp forks popped out from puppet No. 1's arms and it began to kill the snakes with both hands.

Puppet No. 1 specialized in attacking the seven-inch and seven-inch eyes of the wild rainbow striped snake. The effect was quite remarkable. Yun chujju was so happy that she almost clapped her hands and cheered.

However, this fellow knew that the most important thing now was to escape. Although he was reluctant to part with puppet No. 1, he could not care less about his life and ran away.

Seeing that Yun Chujju was going to run away, the snakes were unwilling to give up. Some of them stayed to attack puppet no. 1, but most of them still chased after Yun Chujju.

Yun chujju mumbled as she ran. Damn it! Didn't I just pluck some of your mushrooms? Do you have to be so stubborn? If you provoke me, I will burn all your mushrooms to death!

Yun Chujju's heart skipped a beat when she said this. Yes! These snakes cared about their mushrooms the most. She might as well use this as a threat to see if these snakes would still dare to show off.
