

The Yun Family's Ninth Child is an Imp! Chapter 1364

Very soon, Yun chujiu came to the side of the river once again.

After Yun Chujiu handed the pills to the three wild wind blade wolves, she canceled the temporary contract with them and jumped into the river.

The three wild wind blade wolves saw that the river water was really free of toxins, so they decided to stay nearby. There would definitely be many demon beasts here to drink water in the future, so they didn't have to worry about not having any meat to eat.

After Yun Chujiu jumped into the river, she felt that Bai Mantou would definitely do the same thing again, so she rolled her eyes and came up with an idea.

As expected, when Yun Chujiu was looking for Bai Mantou's palace on the riverbed, a huge suction force was transmitted over, and Yun Chujiu was once again transported to Bai Mantou's palace.

Just as Bai Mantou was about to form another seal, Yun Chujiu threw a bunch of chili noodles at it, and Bai Mantou choked on its tears, yun chujiu picked up the rolling pin and beat it with it. "You white mantou! You still want to set me up? I'll beat you to death!"

Bai Mantou was beaten into a white pancake, and its self-esteem suffered a great blow. Wu Wu, it was a tool spirit, and it was the god of this great wilderness mystic realm. How could it be beaten up by this stinky girl again and again? It had no face to Live!

Of course, Yun Chujiu would not really beat Bai Mantou to death. She had almost vented her anger, only then did she coldly say, "Bai Mantou, because of your viciousness, I lost a lot of defensive spiritual artifacts. You must compensate me, or else I will tear down this palace."

Bai Mantou said with a sad face, "Little Fairy, as you have seen, I am very poor. The only cage was taken away by you last time. I really have nothing left!"

"Humph! Bai Mantou, do you think I am an idiot? "If you can not satisfy me today, not only will I destroy your palace, I will also throw you in front of those demonic beasts so that they will recognize you, the black-hearted Qi Ling. I believe that they will treat you well."

Bai mantou's face turned even paler. It was simply ghastly pale. It could imagine how those demonic beasts would deal with it if they knew that it had poisoned the river.

Moreover, it also believed that Yun Chujiu wasn't trying to scare it. This stupid girl was really capable of anything.

Bai Mantou was silent for a moment. "Little Fairy, I really don't have anything good here. I only have some storage rings that belong to those dead cultivators. If you like them, you can take them!"

Yun chujia curled her lips. It was actually the same trick as the radish spirit in the nine serenities crypt. No matter what, it was just a little bit. Thus, she said, "Alright, bring them out and let me have a look."

The white steamed bun took out a bunch of storage rings. After Yun chujia sent her spiritual sense into them, there were indeed only some spirit tools inside. The spirit stones were basically gone, and they were probably already plundered by the white steamed bun.

Yun chujia put away the storage rings, then, she sneered and said, "Do you think you can dismiss me with such a little thing? You can either give me ten or eight immortal tools, or you can give me one hundred million upper-grade spirit stones. Otherwise, I will start to smash them!"

Of course, the white steamed bun would not give it so easily. He was crying about being poor and pretending to be pitiful. Unfortunately, these things did not work on Yun Chujia at all. In the end, he could only reluctantly give one hundred million upper-grade spirit stones to Yun Chujia.

"Little Fairy, now you are satisfied. I will send you out. Don't worry. This time, I will definitely not send you to a dangerous place," the white steamed bun said ingratiatingly.

Yun chujia glanced at him. "It doesn't matter if I send you to a dangerous place. I will come back anyway. When the time comes, HMPH!"

Bai Mantou sent Yun chujia out with a smile on his face. Then, he revealed a sinister smile. Stupid girl, I will use my trump card this time. You will definitely die!
