

The Yun Family's Ninth Child is an Imp! Chapter 1382

Soon, it was the day of the mid-year grand competition.

Dean Huangfu carried out a routine mobilization before the grand competition. After he was done with the formalities., he went straight to the point. "The location of this year's mid-year grand competition is the Misty Valley. Do you think that this is just an ordinary valley from the name? "In reality, it isn't. The location of the Misty Valley isn't fixed every time, and it only appears for a month at a time.

"After you enter, you won't be able to leave Midway. It's extremely dangerous inside, and there's a ban on flying and the use of talismans. If there are any students who want to give up, you can step forward now. Being eliminated is better than losing your life."

After Dean Huangfu finished speaking, he looked around. Although many of the students had looks of unease on their faces, no one stepped forward, he continued, "Your mission this time is to collect the underground spiritual mushroom. This underground spiritual mushroom is extremely precious and can only be found in the Misty Valley.

"It is different from other spiritual mushrooms. You can not see its tracks on the ground. You can only rely on your sharp observation skills to discover its location. Moreover, this kind of spiritual mushroom can move quickly underground, "Therefore, it's very difficult to pick it. Your results will be determined by the number and quality of the underground spiritual mushrooms you pick."

Yun chujia found it quite interesting after hearing it. In the modern era, there was a kind of high-grade ingredient called truffle. It also grew underground and relied on a little pig with a sharp sense of smell to find it. She had even tried it once. TSK TSK., it was really not easy to find one.

In this year's mid-year competition, Deputy Dean Xiao was still leading the team. After everyone boarded the Flying Spirit Tool, they set off to the place where they discovered the Misty Valley.

Three days later, the Flying Spirit Tool arrived at the Misty Valley.

There were already some cultivators gathered outside the Misty Valley. They were probably here to collect the earth-burrowing spirit mushroom. After all, this kind of spirit mushroom was very precious. Fortunately, the Misty Valley was very large. Once people entered, they basically scattered.

Yun Chujiu's heart stirred. The Yin family was probably going to make a move this time. This was a perfect opportunity for an ambush.

Therefore, after entering the misty valley, Yun Chujiu said to Feng Ming and the other two, "Senior Brothers, let's split up."

Although Feng Ming and the other two didn't understand, they were used to listening to Yun Chujiu's arrangements. They could only nod and agree. Yun chujiu randomly picked a direction and hopped away.

Yun chujiu dug as she walked, but she did not find the so-called underground spiritual mushroom.

F*ck! Where was this D* MN mushroom hidden? Could it be extinct?

Yun chujiu complained as she walked deeper. The deeper she went, the more dense the fog became. Fortunately, Yun Chujiu had the luminous pearl, so it was not too much of a problem.

As the sky gradually darkened, the fog also grew larger. Yun Chujiu's luminous pearl could only illuminate a range of thirty feet.

Yun chujiu finally found a cave. Although it was dirty and full of animal remains, it was still safer than outside.

Yun chujiu used the cleaning spell to clean up the debris in the cave, then lit a bonfire and spread a snow cashmere blanket on the ground. The temporary residence was finally completed.

Yun chujiu had a simple dinner. After extinguishing the bonfire, she asked the three little ones to take turns to be on guard and fall asleep.

While she was half asleep, Xiao Hei Woke Yun chujiu up. Yun chujiu heard the sound of footsteps.

Yun chujia immediately jumped out of the cave silently. Taking advantage of the fog, she hid behind a mountain rock. She took off her spirit ring and carefully held her breath.
