

## The Yun Family's Ninth Child is an Imp! Chapter 1384

Those people turned their ears to listen. Sure enough, the roars of beasts came from far away and near. It seemed that they were really coming this way.

“Boss, what should we do? Should we run?” Everyone was panicking.

“It doesn't make sense. Even if there is a beast tide, the demon beasts should be running towards the entrance of the Misty Valley. Why would they run here? Let's take a look again. Where should we run to? “This place is covered in dense fog. We have no idea where is safe.” The leader thought for a moment and said.

Everyone could only obey his order and stared at the outside of the cave with full vigilance.

After a short while, the roars of the demon beasts that sounded like a tsunami were heard nearby. Countless demon beasts rushed over from the dense fog.

The people of the Nether World Palace were so scared that their legs turned to jelly. Those people didn't care about the order of the leader anymore. They rushed out of the cave and ran away.

Unfortunately, Demon Beasts were everywhere except for the cliffs. Those people soon died in the mouths of the demon beasts.

A few people had an idea and climbed up the cliff. After climbing for a short while, a big rock fell from above. These people were not prepared at all. They were hit by the rock and fell to the ground, the demon beasts below naturally would not let go of the food that was in their mouths.

In a short while, the sixteen people were all dead. None of them survived.

Yun Chujiu, who was on top of the cliff, quickly told the guai Cao to stop seducing them. Otherwise, she would throw the rock at her own feet.

The demon beasts realized that the smell that attracted them had suddenly disappeared. They were very unwilling to give up and looked around. However, Yun chujiu climbed very high and was covered by the fog. Therefore, the demon beasts could not find her even after searching for a long time, they had no choice but to disperse.

Yun chujiu was very proud in her heart. What did she mean by being smart? What did she mean by defeating the strong with the weak? What did she mean by using her brain to win?

It's me! It's me! It's still me!

Do the people of the Netherworld Palace still want to capture or kill us all? I'll kill all of You First! I'll destroy them one by one. I'll kill them one by one. I'll make sure that none of you can return alive!

After a while, Yun Chujiu finally climbed down from the cliff. She could not stay in this cave anymore. The smell of blood was too strong here. There might even be demonic beasts coming over. It was better to move to another place.

Yun chujiu stayed behind a big rock for the night. After eating breakfast, she continued to move forward.

She had already made a plan. If she met anyone else, she would tell them about the attack from the Netherworld Palace. This way, everyone would have a precaution. Moreover, if there were more people, there would be some protection.

However, perhaps because the Misty Valley was too big, Yun Chujiu did not meet anyone else after walking for half a day. She also did not meet anyone from the Netherworld Palace.

Yun chujiu simply continued to search for the earth-burrowing spiritual mushroom. This thing was related to whether she could skip a grade. If she could not find one and was eliminated, it would be embarrassing.

However, the earth-burrowing spiritual mushroom grew in the soil and could not be found outside. How was she supposed to find it? This huangfu old man was really wicked. He actually came up with such a stupid question!

Just as Yun Chujiu was worrying, Xiao Hei volunteered, "Master, let me help you find it!"

Yun Chujiu's eyes immediately lit up. Yes, she could not find it, but Xiao Hei could. It would definitely find it if it went underground.

Xiao Hei went underground and soon found a underground spiritual mushroom. Just as the underground spiritual mushroom was about to run away, it was put into the storage space by Xiao Hei.
