

## The Yun Family's Ninth Child is an Imp! Chapter 1409

The little skeleton saw that Yun Chujiu had no intention of coming out and became even more anxious.

“You, I’m warning you. Come out immediately, or else I won’t let you off!”

“Won’t let me off? Why Won’t you let me off? Little Skeleton, you have to recognize a fact now. If you don’t make me happy, I’ll absorb all the poison in this place. When that time comes, TSK tsk, this Misty Valley won’t be called Misty Valley Anymore!” Yun Chujiu said as she played with the water with her hand, it was so infuriating.

“You, you, you dare?”

“What a joke, what do I not dare? What does the Misty Valley have to do with me? “Besides, I have already dug up a lot of underground spiritual mushrooms. Even if I have to stew mushrooms and chicken every day, it will be enough for me to eat for a long time.” Yun Chujiu said with a smile.

The little skeleton was so angry that it immediately fell apart!

Yun chujiu curled her lips. “Little skeleton, I advise you to make some paste to glue all your parts together. Otherwise, your shoddy construction is really unreliable. If one day you fall apart and you can’t gather them together, wouldn’t that be bad?”

The little skeleton had already gathered halfway, but when it heard Yun Chujiu’s words, it fell apart again!

Shameless!

Too Shameless!

If I hadn't met such a pervert like you, would I have been angered to the point of falling apart again and again?

"You, what do you want?"

"I'm not a greedy person. You made me suffer such a huge shock. Moreover, you even saw the puppet's performance for free. Don't you want to express your gratitude?"

"What? You want money? Don't even think about it!"The little skeleton immediately became anxious!

"Who said I want money? I don't want money!"Yun Chujiu said with a smile.

The little skeleton was relieved. "You don't want money? If you don't want money, then we can talk about it."

“Just get me a hundred and eighty divine weapons. Even if it’s not enough, I can get a few thousand divine weapons.”

The little skeleton was once again angered to the point of fainting. You are simply asking for too much. Do you think that divine weapons are like cabbages? You Don’t even have a single one, and you still want to give me a hundred? This is simply infuriating!

After repeating this over and over again, the little skeleton was angered to the point of fainting dozens of times. Yun Chujiu and the little skeleton finally came to an agreement. The little skeleton would give all the defensive spirit artifacts that it had collected to Yun Chujiu, and also give Yun chujiu a hundred stalks of heaven grade spirit herbs.

“Stinky, Little Fairy, I have already fulfilled your request. Please come out from the pool!”The little skeleton knelt by the side of the pool with a look of despair on its face. It felt that it was going to be tortured to the point of insanity.

“There’s still one more important thing. You have to send me out. I don’t want to stay in this Misty Valley.”Yun Chujiu swam around in the water, as happy as a little fish.

“Little fairy, this... This is really difficult! Although I’m a tool spirit, I can’t control when this Misty Valley will appear!”The little skeleton could not wait for this evil star to leave as soon as possible, however, it did not have the ability to make the Misty Valley appear earlier.

“I don’t care. In any case, if you don’t send me out, I will absorb all the poison in this poisonous spring. HMPH!” Yun chujiu continued to absorb the poison in the poisonous spring.

The little skeleton was so anxious that it kowtowed to Yun Chujiu. “Little Fairy, shut up! I beg you to be merciful! I will think of a way!”

Yun chujiu then slowly raised her head and sneered in her heart. You Little Thing, I’ll pay you back ten thousand times for what you did to me previously!

The little skeleton was so anxious that its head was banging on the ground. What should he do? How could he get this little pervert out? This was the void, there was no way to send her to the Tian Yuan continent!
