

The Yun Family's Ninth Child is an Imp! Chapter 1411

One month later, it was time for the competition between the two academies.

This competition had attracted the attention of almost everyone on both continents. The number of spectators had reached over a million. A huge competition stage had already been set up on the burning sky plains, and there were even VIP seats set up around it.

Of course, the longevity hall and the other powers had also secretly sent people to make arrangements, in case the Nether World Hall took this opportunity to attack the Tian Yuan continent.

Although the Tian Yuan Academy was the main character of the competition on the Tian Yuan continent's side, it was di Linhan who personally supervised the battle, because this competition was not to be trifled with.

On the Netherworld continent's side, other than Vice Palace Master Liu, who everyone knew, there was also a veiled lady. It was said that she was the Holy Maiden of the Hall of the netherworld, although her face could not be seen... . Sheng NV, however, the magnificence she exuded caused people to feel a sense of reverence from the bottom of their hearts.

This was the first time that the people of the Tian Yuan continent had seen the Saintess of the Nether World Hall. It was said that this Saintess was extremely mysterious. Even the people of the Nether World Hall had not seen her true face. However, the SAINTESS's position in the nether world continent was unbreakable... Sheng NV, if it was not for the SAINTESS's appeal, the Nether World Hall would not have been able to become the number one faction in the nether world continent.

Although the two sides were incompatible with each other, on the surface, they still politely nodded to each other in greeting. After that, the Dean of the Nether World Academy, Si Tushi, jumped onto the stage with a fake smile.

“Everyone, thank you for coming to watch the competition between the Nether Academy and the Tian Yuan Academy. Although I am far away from the nether continent, I have heard of the fame of the Tian Yuan Academy. Today, I am fortunate enough to be able to compete with the Tian Yuan Academy. It is truly a blessing in three lifetimes.”

Dean Huangfu naturally wasn't willing to be outdone. He also jumped onto the stage and cupped his hands towards si tushi. “Dean Si Tushi, there is no need to belittle yourself. Actually, although the nether academy can not compare to our Tian Yuan Academy, it is still passable.”

The people of the Tian Yuan continent burst into laughter. Dean Huangfu was really straightforward. What he said was really venting his anger!

Aren't you, Si Tushi, beating around the bush and belittling us? Our Dean Huangfu is going to slap your face directly and say that you can't do it. You'll die of anger!

Si Tushi did not expect dean huangfu to be so straightforward. He was so angry that he gritted his teeth. “Dean Huangfu is really confident. Since that's the case, let's compete on the stage!”

“Dean Si Tushi, why are you so flustered? I’m just speaking the truth.” Dean Huangfu said lightly.

Si Tushi flung his sleeves in anger and jumped off the stage. Dean Huangfu shook his head innocently and also jumped off the stage.

In the first round, the Tianyuan Academy had won completely. It had to be said that Dean Huangfu had learned one thing from Yun Chujiu, which was that it was better to be angry than to die.

Vice Palace Master Liu glared at Si Tushi unhappily. He was really too impatient. He had been angered to such an extent with just a few words, and it was really not worth it.

Si Tushi also knew that he had lost his composure in his performance just now. He thought to himself, ‘Huangfu Zhongheng, you don’t have to be proud!’ A person who had the upper hand in words was not considered a hero. There would be tears in a while!

He had prepared several years in advance for this competition. All the geniuses of the Netherworld continent had been accepted into the Netherworld Academy by him. Not only were there geniuses with high spiritual power, but they had also specially groomed several talents with alchemy, cultivation, and the five arts, the Netherworld Academy would definitely win this competition.

If the Netherworld Academy won this competition, the confidence of the people of the Tianyuan continent would be greatly affected. At that time, the Netherworld Palace would take the opportunity to launch a war, and they would be able to expand their territory like a hot knife through butter, perhaps the entire Tianyuan continent would be theirs.
