

The Yun Family's Ninth Child is an Imp! Chapter 1413

The people of the Netherworld continent who were watching from below the stage immediately became complacent!

“TSK TSK, weren't you guys bragging just now? Why aren't you bragging now?”

“Do they still have the face to brag? If I were them, I would just find a hole and crawl into it!”

“Exactly, it's really embarrassing!” “I'm so embarrassed for you guys!” “To think that only one person managed to squeeze into the top five, and the remaining four people, Haha, actually ranked at the bottom. Your Tianyuan continent's refining level is really not something to be praised!”

..

The people from the Tianyuan continent also felt that they had lost face, but they could not show weakness, so they said, “Humph! It's only the first round. In the next array competition, I'll let you guys see the prowess of our Tianyuan Academy.”

“That's right. Visitors are guests. We're just giving you a round!”

“What a petty person. If you win one round, you won’t know what’s good for you. Bah!”

..

Amidst the bickering of the crowd, the array formation competition began.

The array formation competition didn’t allow the participants to make array plates on the spot. Instead, the instructors from both sides set up ten different array formations on the stage. The participants had to pass through these array formations in order. The one who took the shortest time would be the first place.

Those who did not know how to use formations could only break through the formations by force. On the other hand, those who were proficient in formations only needed to find the trap door of the formation and they would be able to break through easily.

For the first few formations, the speed of the ten participants was almost the same. The further they went into the formations, the more complicated they became. The speed at which the participants broke through the formations was also much slower.

The people from the Tian Yuan continent were very happy. This was because the fastest person was Mo Chen from the Tian Yuan Academy. He had already entered the seventh formation, and the top three were all students from the Tian Yuan Academy.

The teachers and students of the Tian Yuan Academy also heaved a sigh of relief. It was still acceptable for them to win one battle at a time. If they were to lose both battles, it would be too much pressure for the next battle tomorrow.

The dean of the Nether Academy, Si Tushi, revealed a cold smile on the corner of his mouth. HMPH, do you think that you can win this array formation battle? Jiang Xiao had the illusion-shattering pearl on him in this battle. These low-grade earth-rank array formations could not escape the eye of the illusion-shattering pearl at all. The reason why Jiang Xiao had not exerted his strength was that he was afraid of arousing suspicion.

As expected, Jiang Xiao began to exert his strength and gradually caught up. At almost the same time, he and Mo Chen entered the tenth array at the same time.

Everyone's heart was immediately in their throats. Whoever could come out first would obtain the final victory. Only the first place was the key. The other rankings were all to accompany the crown prince in his studies. It was useless!

Mo Chen saw that after Jiang Xiao caught up, fine beads of sweat started to appear on his forehead. His mind was a little flustered. The greatest taboo in breaking a formation was to lose one's mind. The more anxious Mo Chen was, the more he could not find the life gate of the formation.

On the other side, Jiang Xiao had the illusion shattering pearl. He easily found the location of the life gate. However, in order not to reveal any flaws, he deliberately delayed for a while before walking out of the life gate.

The people of the Netherworld continent immediately cheered. We have won again!

The momentum of the people of the Tian Yuan continent immediately became dispirited. They had lost two rounds in a row. Although the second to sixth place were all from the Tian Yuan Academy in the second round of the array competition, only the first place was considered a victory!

Yin Sulian said angrily, "Humph, if my sister had not been killed by that B * Tch Yun Chujiu, she would definitely have won this round. If you want to blame someone, blame that B * Tch Yun Chujiu!"
