

The Yun Family's Ninth Child is an Imp! Chapter 1415

Di Linhan's face immediately darkened. "Family head Yin, I know that you have always been dissatisfied with little ninth girl, but is it appropriate for you to belittle a junior like this? Please be careful with your words."

Yin Qinghua snorted coldly and did not say a word, thinking to himself that since that wretched girl was already dead, he did not need to go against di Linhan because of this.

Qin Yixiao from the Gui Yuan sect laughed and said, "Let's think of a countermeasure for tomorrow. If we lose the alchemy competition, then our Tian Yuan continent will lose the first phase of the competition completely."

The Medicine King Valley's Bai Li Qingtian laughed out loud, "You can rest assured on this point. Although Yan'er's spiritual power is not too high, but her alchemy skills are still passable. I reckon that defeating the people from the Netherworld Academy will not be a problem."

It was only now that everyone remembered. That's right, there was still Baili Yan! Baili Yan was Baili Qingtian's most doted granddaughter. From a young age, she had revealed her talent in alchemy. Baili Qingtian had been carefully grooming her, and it was said that she was now a level ten alchemist.

"Bai Li's medicine king is right. Tomorrow, at least we will win the alchemy match. This way, even if we lose the Beast Taming and Talisman, we won't lose too badly." Yin Qinghua echoed. The Yin clan had already offended the temple of Immortals, he naturally wanted to build good relations with other factions, so his words more or less had the intention of pleasing Bai Li.

Everyone discussed for a while, but they didn't come up with any good countermeasures. After all, the competition was tomorrow, and even if they learned it now, it would still be too late.

This night, many people in the Tian Yuan continent didn't sleep well. They were all worried about the competition the next day. If they lost the pill refinement competition, they would be disgraced by the Netherworld continent's 3:0 score.

The next day, when the sky had just brightened, everyone had already gathered at the competition venue.

At this moment, someone exclaimed, "Look, there seems to be another heavenly fire descending from the distance. It Can't be another large-scale heavenly fire, right?"

"It's true! But there seem to be only a few balls of heavenly fire. It's probably just a small-scale heavenly fire. It's not a big deal. Anyway, it won't burn up. It'll extinguish itself in a while."

The crowd discussed a few more words, and then they no longer took it to heart. They began to discuss about the upcoming competition.

"Ai, I didn't expect the Tian Yuan Academy to actually lose two rounds. It really makes me lose face."

“Who said so! The Tian Yuan Academy has always claimed to be the best academy in our Tian Yuan continent. I didn’t expect them to be all good-looking and useless. If we lose today’s alchemy competition again, we’ll lose the first phase of the competition!”

“Yeah, if we let the Netherworld Academy score a 3:0, that would be really embarrassing!”

“Don’t be so pessimistic. I heard that the alchemy competition this time will be attended by the granddaughter of the Medicine King, Bai Li Yan. Bai Li Yan is already a level 10 alchemist at such a young age. She will definitely be able to obtain first place.”

“Really? Ah, hearing what you said, there is still some hope. After all, the reputation of the medicine king, Bai Li, is out there. Naturally, his granddaughter is also powerful.”

..

Hearing the discussions of the crowd, Baili Yan clenched her fists tightly. She would definitely be able to win. She was not only representing the Tian Yuan Academy, but also the Medicine King Valley’s face.

Seeing that it was about time, the host jumped onto the high platform. Just as he was about to announce the start of the pill refining competition, he saw a black dot flying over from afar. He was puzzled, could it be a demonic bird? Logically speaking, there were quite a number of mighty figures here, and even demonic birds should have avoided them. Why would they fly over in this direction?
