

The Yun Family's Ninth Child is an Imp! Chapter 1420

One of the students from the Huang class exclaimed, "Oh my God! I know that Alchemy Furnace! The class monitor often uses it to wash the hot pot!"

Almost everyone heard the student's words and their eyes all focused on Yun Chujiu's alchemy furnace. They were extremely sure that the student was telling the truth because there was a vegetable leaf stuck on the outside of the alchemy furnace!

Yun chujiu calmly used her hand to pull off the vegetable leaf. Then, as if nothing had happened, she waited for the host to announce the start of the competition.

The crowd instantly exploded!

"Heavens! Is there no one left in Tianyuan Academy? Why did they send such a product up there? This alchemy furnace is not only a low-grade one, but it is also used to bathe in hot pot. Can it be used to concoct pills?"

"That's right, this is simply nonsense! What is Dean Huangfu Thinking? Why would he send her up to participate in the Alchemy Competition?"

"That's right, although this Yun chujiu has made contributions in the Misty Valley, but we can't just let her do whatever she wants just because of this, right?"

... .

Yin Qinghua said with a look of schadenfreude, “Hall master, Yun Chujiu is really a genius in the alchemy world. She actually used an alchemy furnace to wash the hotpot. I have really opened my eyes!”

Di Linhan looked at him and said: “Family Head Yin, Little Jiu has always been very frugal. She is not like your Yin family who just gave a tenth of the spirit stone mine to our hall of longevity. She is really generous.”

Yin Qinghua was so angry that his face turned red. Di Linhan had just taken advantage of him and was just trying to show off. He was really hateful! HMPH, once the competition ends, Yun Chujiu will lose face and your hall of longevity will be implicated as well. Let’s see how you are going to show off then!

Although di Linhan did not show it on the surface, he was actually very uncertain in his heart. He thought to himself, [what is little jiu trying to do?]? [are you going up there to make others look serious?]?

It was at this moment that Yun chujiu raised up her claws weakly and said: “Host, I seem to have forgotten to wash the pot after eating the hotpot last time. Can I Brush My Alchemy Furnace First?”

Di Linhan was so angry that his nose was almost crooked. You Little Foodie! [are you going up there to be funny?]?

As expected, the people from the Netherworld continent were laughing so hard that they were sprawled on the ground. The five students from the Netherworld Academy who were participating in the competition revealed looks of disdain. [looks like the Tian Yuan Academy is really not worthy of its name. What the hell is going on up here?]? [are they here to play?]?

The emcee could be considered to have gone through a lot, but this was the first time a contestant had made such a request. Hence, she looked at the judges. It was also the first time the ten judges had encountered such a situation... , after some discussion, she said, "Sure."

Therefore, Yun Chujiu took out a basin of water from her storage ring, took out a brush, and began to clean the alchemy furnace.

Everyone looked at the scene in front of them with a dumbfounded look. Why did they suddenly have the illusion that the people on the stage were not competing in alchemy but in cooking?

After a full quarter of an hour, Yun chujiu finally cleaned the alchemy furnace. After wiping it with a clean cloth., she then said with a smile, "I'm done cleaning! Judges, if I get first place later, you won't use me as a scapegoat, right?"

The ten judges snorted in disdain almost at the same time. You got first place? If you got first place, would you let the other alchemists live? Which Alchemist didn't cherish the Alchemy Furnace Like a treasure? Only a weirdo like you would use it as a hotpot. There was really no one else!

However, since Yun Chujiu had asked, they naturally had to answer. Thus, they said, "You only used clean water to wash it. Naturally, you won't lose your results because of this. You can rest assured and just compete."
