

The Yun Family's Ninth Child is an Imp! Chapter 1423

Due to the fear of cheating among the contestants, the rankings of the contestants were intersected. In other words, a contestant from the Nether Academy would be followed by a contestant from Tian Yuan Academy.

At the very front was a student from the Nether Academy. The referee gestured for him to open the lid of the alchemy furnace and conduct an examination.

After the referee had examined the results, the host announced the results loudly, "Nether Academy, Liu Qian, 80% completion rate, four high-grade pills, two middle-grade pills, two low-grade pills, 30 points."

When the crowd heard Liu Qian's results, their reactions were not very enthusiastic. This result was basically considered normal. It was impossible for him to be ranked first.

The referee began to examine the pills of the next students from the Tian Yuan Academy. Very soon., the host announced the results loudly. "Tian Yuan Academy's Zheng Lizhi, pill success rate 80% , three high-grade pills, three middle-grade pills, two low-grade pills, 28 points."

..

Very soon, the results of the first seven people were announced. The points were almost the same. Everyone knew that the candidate for the first place should be chosen between the next two people. As for Yun Chujiu, no one counted her as one of them.

The next two people, one was Baili Yan from Tianyuan Academy, and the other was Feng Ao from the Nether Academy. Feng Ao's Feng family was famous for alchemy in the nether continent, so Feng Ao was very confident in his alchemy skills, moreover, he was the first to complete the alchemy compared to Baili Yan. Even if the two people had the same results, he would still win.

Baili Yan felt that she had performed well today, but when she saw the confident look on Feng Ao's face, she was a little uncertain.

The judge motioned for Baili Yan to open the lid of the alchemy furnace. After Baili Yan opened the lid, the judges could not help but exclaim when they saw the situation inside.

The crowd below the competition stage knew that Baili Yan's results must be pretty good. Otherwise, the judge would not be so surprised. As expected., the host announced excitedly, "Tian Yuan Academy, Baili Yan, pill success rate 100% . All high-grade pills, 50 points."

Everyone immediately exploded!

"Heavens! A 100% pill success rate isn't scary, what's scary is that they're all high-grade pills! This is too heaven-defying!"

“Baili Yan is the granddaughter of Baili Yao Wang, it’s not surprising that she has such pill refining talent.”

“This round, our Tian Yuan Academy should be able to take back a city!”

..

The people from the Netherworld continent curled their lips and said, “You’re celebrating too early. Don’t forget, Feng Ao’s results haven’t been announced yet. If his results are the same as Baili Yan’s, then the first place will also be his, because he uses less time than Baili Yan.”

“That’s right. The results haven’t been announced yet, and he’s already starting to show off. How Shameless!”

“When Feng Ao’s results are out in a while, let’s see how you can show off!”

..

At this time, the referee had already walked in front of Feng Ao's workbench and indicated for him to open the lid of the alchemy furnace.

Feng Ao confidently opened the lid of the alchemy furnace. When the referees saw the situation inside, they couldn't help but exclaim in surprise. There were actually ten high-grade pills inside.

Baili Yan's heart sank when she saw the judge's performance. Could it be that Feng Ao also had ten high-grade pills? Fine beads of sweat began to seep out from her forehead. Her hands were tightly clenched together under her sleeves, and she felt as if her entire heart was in her throat.

At this moment, the host announced loudly, "Netherworld Academy, Feng Ao, the pill success rate is 100% . All of them are high-grade pills. 50 points."

The people of the Netherworld continent immediately began to cheer, we won!

3:0!

It was too awesome!

Tian Yuan Academy was only so-so!
