

## The Yun Family's Ninth Child is an Imp! Chapter 1425

The people below the competition stage were extremely curious. What was going on? Why were all the judges dumbfounded? What was going on inside Yun Chujiu's alchemy furnace?

The host was also extremely curious. He stretched his neck and looked over. He saw that there were ten round pills at the bottom of the alchemy furnace. Five of them had circles of patterns on them. They looked pretty, but there was nothing special about them!

The host suddenly covered his mouth. Oh My God! Pills with patterns! ! Then, wasn't that a super-grade pill? ? ! Oh My God, not only did this little girl have a 100% success rate, but she also refined five super-grade pills?

When the other contestants on the stage saw that the judges and the host were all dumbfounded, they all came over curiously, especially Feng Ao, who was closest to them. At this moment, he was very proud. This competition had helped the Netherworld continent obtain victory, whether it was for himself or for the Feng family, it would be of great benefit.

Feng Ao felt that these referees and the host were really making a fuss over nothing. Yun Chujiu's alchemy furnace must have some medicinal juice in it, or there might be some herbs that had not been refined into medicinal juice. was there a need to be so scary?

However, when he saw the situation inside the alchemy furnace, he immediately cried out in surprise, "No, it's impossible! This is impossible! You cheated!"

Yun chujiu glanced at him. "Which F \* CKING Eye of yours saw me cheating? If you don't know how to speak, then don't say anything. Scram to the side!"

Baili Yan also saw the situation inside the alchemy furnace at this time. She also felt that this was impossible. However, at this time, she and Yun Chujiu both represented Tianyuan Academy, so they naturally chose to be on the same side as Yun Chujiu, therefore, she said, "Junior Yun is right. What right do you have to say that Junior Yun cheated? Don't tell me that you can't afford to lose?"

Feng ao shouted fiercely, "What right do I have? She used such a short time, how could she successfully refine it? Therefore, he must be cheating!"

Yun chujiu curled her lips. "If you can't do it, does that mean that others can't do it?" "You don't know how to have children yet. Do you think that others are cheating when they have children?" "There's something really wrong with your brain. I have to suspect that you must have had dog shit luck to be able to have such results just now. You are far worse than my senior Bai Li!"

Although Baili Yan felt that Yun Chujiu's result was suspicious, she was very happy to hear her scold Feng Ao like that and raise herself up. More than half of the annoyance that she had accumulated just now had disappeared.

Feng Ao's face was flushed red with anger. "Stupid Girl, you're spouting nonsense! You're cheating!"

Yun chujiu shrugged her shoulders and spread her hands. "Whether I cheat or not, it's not up to you. Judges, announce the results. I still have to prepare for the Talisman Competition!"

The ten judges looked at each other and took out the pills in the alchemy furnace to smell them. These pills were indeed freshly refined. It was impossible for them to be prepared in advance. Therefore, there was no such thing as cheating. No matter what.., the little girl won this round.

The people below the competition stage were extremely curious. What exactly was in Yun Chujiu's alchemy furnace? Why were the judges and the emcee all dumbfounded?

And why did Feng Ao say that Yun Chujiu was cheating?

How could she cheat in front of everyone?

The ten judges discussed briefly before handing the results to the emcee.

The emcee's voice was slightly trembling as he announced, "Tian Yuan Academy, Yun Chujiu, pill success rate 100% , Super, five superior grade pills, five superior grade pills, 125 points. This round of pill refining competition, Tian Yuan Academy wins."
