

The Yun Family's Ninth Child is an Imp! Chapter 1426

After the host announced Yun Chujiu's results, there was a deliberate silence, and then there was an uproar!

"What the hell? Did I hear wrong? Not only did Yun chujiu really refine a pill, she even had a 100% success rate? And there are five super-grade pills?"

"Yeah, I also suspect that there's something wrong with my ears!" "Didn't they say that transcendent-grade pills are very difficult to appear?" "Didn't they say that only some alchemy masters would occasionally refine a transcendent-grade pill?" "Why didn't Yun Chujiu produce five transcendent-grade pills in a single pot?"

"The most unbelievable thing is that she used the shortest amount of time! I remember that she only said that she finished refining within an hour."

..

The people from the Tian Yuan continent were more excited than surprised. However, no matter what, they had won the round of pill refining and they had finally regained some face!

At this moment, the more di Linhan looked at Yun Chujiu, the more he liked her. HMM, that Kid bei Ming had a good eye. Little Jiu was indeed a hidden girl! This heaven pilfering switch was used well!

At the side, Xue Li also had the same thought. Wuji this kid was finally reliable for once. This little girl was not bad. Although she might have used some small tricks, the process was not important. The results were the most important.

Alright, including the two of them, almost all the mighty figures in the Tian Yuan continent thought that Yun chujiu had used some small tricks and cheated!

Thinking of this, the Dean of the Nether Academy, Si Tushi, immediately protested!

“Judges! I think that the result is a little inappropriate. Yun chujiu couldn’t possibly have such a high level of alchemy skills. Not to mention her, even a famous alchemy master would find it difficult to refine five supreme grade pills in a single batch. She must have cheated!”

The ten judges frowned in displeasure, one of the elderly judges said, “Dean Si Tushi, although we are not considered alchemy masters, we can still tell if Yun Chujiu cheated. The ten pills in the alchemy furnace are indeed newly refined. There is no possibility of her cheating.”

Si Tushi heard the judge say this, he snorted coldly, “This Yun Chujiu has always been crafty. She might have used some underhanded tricks to deceive you. Don’t you feel suspicious? How could she have such high alchemy skills?”

The ten referees were silent. Indeed, although they were certain that Yun chujiu did not cheat, they could not believe that Yun chujiu had such high alchemy skills.

Yun Chujiu had one hand on her waist, with the other hand, she pointed at si tushi and cursed, "Pui! Si Tushi, to think that you are the dean of the Nether Academy! You are a loser who can not afford to lose! You won the first two rounds of our competition, why didn't Dean Huangfu Jump Out and say that you cheated?"

If we were to follow your reasoning, I would have thought that you guys only got first place because you cheated in refining weapons and formations! "After all, the people of the Netherworld continent are best at conspiracies and tricks, assassinations and so on! "Who knows what kind of shady methods you used to get the two first places?"

Although SI Tushi felt a little guilty in his heart, he said angrily on the surface, "You're talking nonsense! We got the two first places fair and square. Only you, everyone, are not convinced, isn't that right?"

With Si Tushi's instigation, the people of the Netherworld continent immediately echoed, saying that Yun Chujiu was shameless and cheating.
