

The Yun Family's Ninth Child is an Imp! Chapter 1428

Di Linhan frowned slightly. What kind of medicine was this little lass trying to sell? She was usually quite clever, but why was she so stupid today?

Who cares what Si Tushi says, just ignore him. The first place was real. If you were to win, that would naturally be very good, but if you were to lose, you would be blamed by many people!

Many people had the same thoughts as Di Linhan. This Yun Chujiu was really smart and muddle-headed. Could it be that her brain had cramped just now? !

At that moment, everyone heard Yun Chujiu say with a smile, "Soul Cleansing Pill? I've never refined a soul cleansing pill before!"

The people from the Tian Yuan continent almost fainted!

It's over! It's over! This bet is lost for sure!

Yun chujiu, ah, Yun Chujiu, you said that you didn't want the first place, but you had to play tricks. Now, not only did you lose the first place, but you also gained the reputation of cheating. You are really seeking death by playing tricks!

Si Tushi's heart was delighted, he said loudly, "In that case, host, please announce again. The first place in the alchemy competition is Feng Ao. Our Nether Academy won this round, and we don't need to compete with the remaining talismans and beast taming. In the first stage, our Nether Academy won three to zero."

The host hesitated for a moment and was about to make the announcement when he heard Yun chujiu say, "Si Tushi, I say that you are already so old. How can your comprehension be so poor? Did I say that I admit defeat?"

Si Tushi snorted coldly. "Didn't you say that you have never refined the soul cleansing pill? If that's the case, then what is it if you don't admit defeat?"

Yun chujiu spread her hands. "I have never refined it, but that doesn't mean that I haven't succeeded. How would I know if I don't try?" Host, please help me prepare the herbs I need. Isn't it just the Soul Cleansing Pill? It's a piece of cake!"

The host asked someone to prepare the herbs needed for the soul cleansing pill and placed them on Yun Chujiu's workbench. Then, just as she was about to announce the start..., Yun Chujiu spoke again. "Host, please wait a moment. I suggest that Si Tushi personally come up and check my alchemy furnace and these spirit herbs. Also, it's best if he stands beside me and watches me refine, lest he says that I cheated again. Some people are very shameless. They are afraid of losing face and would accuse others of cheating. Oh right, it would be best if the ten judges also watched me. This would prevent Si Tushi from framing me."

Although Si Tushi was gnashing his teeth with hatred, he felt that this was not a bad idea. He stood by the side and watched to prevent Yun chujiu from making any small moves.

The ten judges were all alchemists. They were originally very curious about Yun chujiu being able to refine a supreme-grade medicinal pill, so they were very willing to supervise from the side.

Si Tushi looked at Yun Chujiu's pill furnace a few times, but he didn't find anything strange, Yun Chujiu said with a smile, "Si Tushi, if you're really worried, why don't you give me a pill furnace? I'll use the pill furnace you gave me to refine it. That way, you'll be at ease."

Si Tushi really did have an empty pill furnace in his storage ring. After thinking about it, even though giving it to Yun chujiu was a bit of a waste, he was at least more at ease, thus, he took out the alchemy furnace. "Since that's the case, you can use this old man's alchemy furnace."

Yun chujiu took it and looked at it. She was amused. "Ah! It's a high-grade alchemy furnace! And it's bigger than mine. If this shabu hotpot is much more satisfying than mine!"

Everyone..

Si Tushi felt for a moment that this stinky girl wasn't trying to scam me with an alchemy furnace, right?
