

The Yun Family's Ninth Child is an Imp! Chapter 1429

"Yun Chujiu, can you start refining now?" Si Tushi said impatiently.

Yun chujiu fiddled with the newly obtained alchemy furnace in satisfaction and said carelessly, "Yes, the host will count the time."

Everyone realized that after the host announced the start of the refining, Yun Chujiu did not start refining immediately. Instead, she held the medicinal herbs and looked at them slowly. She had no intention of refining at all.

The crowd could not help but discuss among themselves, "What is Yun Chujiu doing there? Why isn't she refining pills?"

"Didn't she say that? She has never refined a soul cleansing pill before. I think she is just stalling for time. She has already given up."

"Sigh! Do you think she is seeking death by playing tricks? She was originally in first place, yet she had to make a bet with Si Tushi. I think she is already regretting it to death."

..

Si Tushi looked at Yun Chujiu who was dawdling and felt extremely proud. This wretched girl definitely didn't know how to refine the soul cleansing pill. That was why she was pretending to fiddle with the medicinal herbs. No matter how crafty you were, I would make you reveal your true form.

One of the judges couldn't stand it anymore and said to Yun chujiu, "Yun Chujiu, it's already been almost 15 minutes. Why aren't you refining it? What are you doing?"

Yun chujiu said seriously, "I'm giving the herbs a face. Let me see which one is better. Only good herbs can make good pills. I'm not in a hurry to cut the vegetables."

The judge was so angry that he almost fainted!

He had never heard of it!

Giving the herbs a face?

Are you crazy? !

Those judges were now very sure that Yun Chujiu didn't know how to refine the soul cleansing pill. They couldn't help but shake their heads. This little girl was still too inexperienced. She shouldn't have agreed to Si Tushi's bet. She was simply asking for trouble.

Just when everyone thought that Yun Chujiu was just wasting her time, they saw Yun Chujiu turn on the Earth Fire and place the alchemy furnace on top to warm it up.

Everyone was shocked. Could it be that she did not give up?

When the ten judges saw that Yun Chujiu took the same amount of spirit herbs and the pill formula, they were slightly shocked. It seemed that this little girl knew the pill formula of the soul cleansing pill, but they did not know if she could successfully refine it.

This time, Yun Chujiu did not open the lid to refine it. Instead, she placed the herbs in order, closed the lid of the alchemy furnace, and began to control the temperature.

The people of the Tian Yuan continent had some anticipation in their hearts. From the looks of it, it seemed a little interesting. Perhaps Yun chujiu would really be able to refine the soul cleansing pill?

Their good mood did not last long because they saw Yun chujiu lift the lid of the alchemy furnace. Then, she picked up a yellow thistle and threw it into the alchemy furnace. After a while, she picked up another Qi Leng and threw it in..

Everyone was so anxious that they wanted to go up and beat Yun Chujiu up. You originally put the right proportion, why did you add herbs into it again? Aren't you overdoing it? This is really infuriating!

Initially, Si Tushi was a little flustered when he saw Yun chujiu refining it properly, but now that he saw Yun chujiu “Courting death”, he was finally relieved.

The judges felt sorry for Yun Chujiu. Originally, this alchemy furnace might have succeeded, but with her mischief, it probably would not have succeeded. This little girl was really ridiculous.

Only the oldest judge had a thought. This little girl had also added a few medicinal herbs into the bone healing pill when she was refining it previously. Could it be that this was the secret to her being able to refine a super grade medicinal pill?
