

## The Yun Family's Ninth Child is an Imp! Chapter 1463

The judges on the stage were all stunned by Yun Chujiu's valiance. When they heard Si Tushi's shout, they hurriedly shouted, "Mu Yan, Yun Chujiu, you guys stop First!"

Yun Chujiu's heart was filled with hatred. This old bastard SI Tushi was truly treacherous! If it wasn't for him causing trouble, she might have won!

Although Yun Chujiu was unwilling, the judge had spoken, so she could only stop attacking.

Mu Yan took this opportunity to quickly wash his eyes with clear water. Both of his eyes were red like rabbits!

One of the judges said, "Yun Chujiu, the use of poison is forbidden in this competition. You have used poison, so your qualification for the competition has been revoked! The seventh round, the Netherworld Academy's Mu Yan wins!"

When the crowd below the competition stage heard the referee's words, they immediately exploded!

The people from the netherworld continent naturally clapped repeatedly, thinking that the referee was really too wise!

On the other hand, the people from the Tian Yuan continent sighed repeatedly. Yun Chujiu, OH, Yun Chujiu, you're really smart, but you've been fooled by your own cleverness! You just need to hold on for a little longer, and you might be able to win. Why do you need to use poison? Oh right, what kind of poison needs to be used in a sack? Isn't this too much of a waste?

Just as everyone was discussing animatedly, Yun Chujiu spoke up!

"Judge, I didn't use poison! I don't admit to such a crime. Si Tushi interrupted our competition for no reason. I request that Netherworld Academy be judged to have lost this round."

"You didn't use poison? If you didn't use poison, why is Mu Yan in so much pain? is he still unable to move normally?" Si tushi stretched his neck and shouted from below.

Yun chujiu spread out her hands. "I really didn't use poison! How about this, all the judges, go over and take a look for yourself. I really didn't use any poison."

The judges saw that Yun Chujiu was speaking very seriously, so they could only walk over to where the big sack was. They saw a patch of red powder on the ground. A judge who was proficient in using poison used his hands to sniff it, and his face was stiff.

The rest of the people were confused. "Is this poison?"

The judge smiled bitterly. "This is indeed not poison."

"Then what is it?"

"Chili Powder!"

Chili powder? Chili powder!

Everyone felt as if tens of thousands of godly beasts were roaring in their hearts! Damn, this Yun Chujiu was too mean!

Although this chili powder was not poison, if it were to enter the eyes of a person, who would be able to stand it!

However, even if you said that she broke the rules, she really did not break the rules. After all, the chili powder could only be considered as a condiment, not a poison. It could only be said that this person was really too despicable!

Yun Chujiu said with a smile, "Judges, these aren't poisons, right? How could someone like me who abides by the rules use poison? "Since I've already proven my innocence, Si Tushi has interrupted the competition. Should we judge Netherworld Academy to Lose?"

Si Tushi was so angry that he gritted his teeth, he stretched his neck and shouted, "Although the chili powder is not considered poison, it is similar to poison in the competition. Therefore, even if Yun chujiu is not disqualified from the competition, Mu Yan can not be judged to have lost. We should let them continue the competition!"

The few judges discussed for a moment and felt that Si Tushi's words made sense. Although the chili powder was not poison, its power was not inferior to poison. Hence, they announced that the competition would continue, they also warned Yun chujiu that she was not allowed to use the chili powder anymore. One of the judges added that she was not allowed to use the chili powder either.

Yun chujiu touched her nose. Alright, if you don't say it, I will really use it!
