

## The Yun Family's Ninth Child is an Imp! Chapter 1475

Yun chujiu was surrounded by the praises of the crowd. She was extremely beautiful.

With a sweep of her eyes, she saw the seven people in the Misty Valley. Back then, those seven people wanted to rob Yun Chujiu, but later on, Yun Chujiu asked them to help deliver the letter, she even promised to give each of them one million high-grade spirit stones after the mission was completed.

“The seven of you, come here for a moment!” Yun chujiu waved her claws at the seven people.

The hearts of the seven people trembled. They didn't know what Yun Chujiu meant. Could it be that she was looking for revenge?

Although the seven people felt uneasy, they still walked over. “Little Fairy! You are really the great hero of our Tian Yuan continent!”

“Yes, back then in the Misty Valley, it was you who saved everyone. Now, you have won the competition. You are really the heaven's pride of Tian Yuan continent!”

..

Yun Chujiu was amused. “What are you afraid of?” “I promised you back then that as long as you succeeded in delivering the letter, I would reward each of you with one million high-grade spirit stones. I, Yun Chujiu, have always kept my word. These seven million high-grade spirit stones are to reward you.”

The seven people simply could not believe their ears. However, the sparkling spirit stones could not deceive people. They were instantly extremely excited. “Little fairy, we’re not worthy of it! You’re also doing this to save everyone. How can we take your spirit stones?”

“Yes, Little Fairy, even if you want to give us the Spirit Stones, you should not give them to us. You should take back the Spirit Stones!”

“That’s right, even if you want to give them, it should be the people who were saved. You saved them out of kindness, how can we let you spend more money?”

Yun Chujiu’s heart was filled with joy. What she said was so right! However, this guy said, “No matter who gives this spirit stone, I will naturally do what I promised you. You can just take it. As for the others, it is a gesture of goodwill. If you don’t give it, it is your duty. Don’t talk nonsense!”

Those people who were saved in the Misty Valley would be fools if they still didn’t understand what Yun Chujiu meant!

Although they secretly criticized Yun chujiu for being a money-grubber, it was still worth it to pay a few spiritual stones for saving their lives, thus, they generously gave their money away. “Little ninth fairy,

they are right. You are the one who saved them. How can I Let You Waste Your Money? You can keep these spiritual stones.”

“Little ninth fairy, this ten thousand spirit stones is a small token of my appreciation, please accept it.”

“Little ninth junior sister, I don’t have that many spirit stones with me. Take these two thousand spirit stones first, I will give you some more in the future.”

... .

Yun chujiu pretended to decline a few sentences, and then went down the slope and accepted them all.

The seven of them gave a rough estimate in their hearts. Alright, although this little girl had given them seven million, but these people had given her more than twenty million. This little girl was really too good at making money!

Di Linhan made a decision in his heart. In the future, when Bei Ming married Little Jiu, the financial authority of the Temple of Immortals should be handed over to little jiu. The temple of Immortals would definitely be extremely rich in the future... .

Ten days later, Yun chujiu followed Dean Huangfu and the others back to the Tian Yuan Academy.

Yun chujiu now felt that she was walking on air. Because no matter where she went, there would definitely be students from the Tian Yuan academy surrounding her. Other than flattery, they would also ask about pill refinement or talisman drawing methods.

There were many people who wanted to ask her about it, so she decided to hold a “Little nine experience exchange meeting”. Cough cough, the entrance fee was 1,000 high-grade spirit stones per person.

Although everyone felt that it was too much for Yun Chujiu to ask for money, they felt that it was worth it to exchange 1,000 high-grade spirit stones for pill refinement and talisman making experience, so they all handed over spirit stones to listen to Yun Chujiu’s experience.
