

## The Yun Family's Ninth Child is an Imp! Chapter 1489

The six demonic beasts quacked and discussed for a while. Then, three demonic beasts climbed into the lake. Their mountain-like bodies quickly disappeared. It was clear that the lake was very deep.

Yun chujiu couldn't help but sigh. TSK TSK, demonic beasts were so simple! Even if they had cultivated their human bodies, they still couldn't outsmart humans.

After a while, Yun chujiu stretched her neck and looked into the lake. She said worriedly, "Aiya, why haven't the three godly beasts come up yet? Could they be in danger?"

The other three demonic beasts cackled in disdain. They clearly felt that Yun Chujiu's question was very childish. They were like overlords in the lake. No aquatic demonic beasts were their match.

"No, I have to go down and take a look. I'm really worried!" Yun Chujiu jumped into the lake after saying that.

The three demonic beasts were stunned. This little girl was too kind, right? She was actually so worried about our companions? HMPH! She was overestimating herself. What was the use of her going down to take a look? She might even be eaten by other aquatic demonic beasts.

Just as they were thinking, they noticed Yun Chujiu's little head popping out from the other side of the lake. Then, she rode on a red two-tailed Fox and ran away!

The three demonic beasts finally understood!

They had been tricked!

That damned brat! She was too cunning!

The three demonic beasts raised their heads and screeched. Then, they quickly climbed into the lake. After they climbed onto the other side, they quickly chased after Yun chujiu.

Yun chujiu sat on the back of Xiao Hong's red fox. She was very pleased with herself. Little Fellow, you still want to eat me? I Can't play you to death!

"Xiao Hong, now is the time to unleash your abilities. Run as fast as you can! I don't believe that you can't outrun those three bastards!"

Xiao Hong's heart was on the verge of collapse!

Master, my spiritual power isn't as high as theirs, and I'm carrying a burden like you on my back. Can I outrun them?

Although Xiao Hong was cursing in her heart, her four legs were struggling with all their might as she ran forward with all her might.

Yun chujiu soon saw the three monsters chasing after her. She had no choice but to put Xiao Hong away and rely on her two legs to run.

Yun Chujiu ran faster than Xiao Hong and gradually increased the distance between her and the three monsters. In the end, the three monsters only became three Xiao Hei dots. Yun chujiu finally let out a sigh of relief.

"Oh my God, I've finally saved my life!" Yun chujiu continued to run forward and looked around.

Compared to the desolation on the other side of the lake, this place was much better. The grass was green and there were some medicinal herbs occasionally. However, Yun Chujiu was in a hurry to run for her life and didn't have time to pick them.

Yun chujiu was running forward when she saw a group of people coming from the opposite side. There seemed to be dozens of people. It was too late for Yun Chujiu to avoid them.

“Yun Chujiu! It’s that damned girl, Yun Chujiu! I’ve been searching for her everywhere, and it didn’t take me long to find her. Yun Chujiu, today is the Day You Die!”The leader of the group said fiercely.

“You are from the Netherworld Palace? How did you gather together? Isn’t this teleportation random?”Yun chujiu looked at them, these people were all wearing the clothes of the Netherworld Palace. It was really strange. The teleportation locations were all random. Why were so many of them gathered together?

The person in the lead sneered. “It can only be said that the heavens have eyes. We were all coincidentally teleported to this area. Even the heavens want you to die! “Although your talisman seal is powerful, the use of talisman seals is prohibited in this burning sky mystic realm. You’d better obediently accept your death!”
