

The Yun Family's Ninth Child is an Imp! Chapter 1505

Hall Master Yu and the others were shocked. This stinky girl could actually talk in the water? How was this possible?

Although the water repellent bead could allow people to move freely in the water, it was absolutely impossible to talk. Either her constitution was special, or she had a water repellent bead on her body!

At the thought of the water repellent bead, everyone's eyes revealed a greedy look. The water repellent bead was a legendary existence. Even if it was for the sake of the water repellent bead, they had to kill this stinky girl!

Hall master Yu waved his hand, indicating for everyone to surround Yun Chujiu.

Unexpectedly, before they could go forward to surround her, Yun Chujiu smiled darkly at them. Then, with a shake of her hand, she spilled something, causing the surrounding river water to turn pitch black.

Just as everyone was panicking, they noticed several small purple lightning bolts shooting straight at them.

Hall Master Yu and the others and the spiritual beasts quickly dodged. What shocked them was that the small lightning bolts could actually make a turn!

F * ck! This stinky girl was too strange!

Not only was it strange on land, but it was also strange in water! It was obviously the simplest lightning bolt, how could it make a turn?

Hall master Yu gestured for everyone to calm down and got everyone to start attacking the front with their spiritual power.

These people all had water spiritual roots and their spiritual power were all aquatic demonic beasts. They shot forward. Although they couldn't see Yun Chujiu's exact location, that stinky girl was definitely in front.

"Ouch! I'm seriously injured! I Can't do it! I have to escape!"

Yun Chujiu's screams and muttering came from the front. Hall Master Yu and the others were overjoyed. One of the killers immediately swam forward quickly. His spiritual pet, the iron-toothed shark, also rushed forward.

After swimming for a while, the killer saw Yun chujiu swimming forward with all her might, and traces of blood spread as she swam forward.

The killer was delighted. It seemed that this stupid girl was really injured. Although her little lightning was a little strange, as long as he was careful, it would be no problem. Moreover, he had the help of the iron-toothed shark.

Thinking of this, the assassin sped up and chased after Yun Chujiu.

Yun chujiu turned around and saw him chasing after her. She couldn't help but sneer in her heart. TSK TSK, Little Fellow, another one is courting death. I'll kill you all one by one!

The assassin was chasing after her when he saw Yun Chujiu suddenly stop swimming. Just when he was a little surprised, he saw Yun chujiu waving her left and right hands, and several purple bolts of lightning flew towards him and the giant iron-toothed shark.

Although the assassin was a little surprised, he did not care too much. He shot out a spiritual eel and pounced towards Yun Chujiu.

Yun chujiu summoned eight flying swords to protect herself. She continued to shoot purple lightning bolts at the assassin and the iron-toothed shark.

After a few moves, Yun chujiu thought that it was not good. She still thought that things were too simple. It seemed that he was too careless to be able to kill that person previously. This was obviously

not easy to deal with. Moreover, the people behind had already swam over. They would be able to catch up soon. If she could not finish the battle quickly, she would be surrounded!

What should she do?

The purple needle was not enough. She did not know how to use the intermediate level materialization spell. What if she could also materialize an aquatic demon beast? Yes, she would give it a try!

Yun chujiu thought of this and started to use the intermediate level materialization spell. Then, she sadly realized that she had released a cute little piglet of spiritual energy.

The little piglet of spiritual power that had been released was clearly a little confused. Then, it swam toward the giant iron-toothed shark.
