

The Yun Family's Ninth Child is an Imp! Chapter 1506

The assassin and the steel-toothed shark looked at the Piglet released by Yun Chujiu with disdain. If the assassin did not have a waterproof bead in his mouth, he would definitely laugh out loud. This piglet was indeed very abnormal on land, however, it was useless in the water!

As expected, the piglet clearly did not know how to swim. Its four short legs were flailing around randomly, and it even flipped over in a moment of carelessness! Its belly was facing upwards, as if it was drowned.

Yun Chujiu was dumbfounded. It seemed that the piglet clearly could not do it. It could only continue to use the purple lightning. She was afraid that she could not kill these people. If she really could not do it, she would first get on the boat. After all, she had the water repellent bead, so she could swim much faster than these people.

Seeing that the piglet was really too stupid, the steel-toothed giant shark also showed a disdainful expression. This water was the territory of their aquatic demon beasts, and this piglet still wanted to attack it? It was simply wishful thinking. It couldn't even swim, yet it still wanted to attack it?

Just as the giant shark was feeling proud, it never expected that the piglet would suddenly flip over. Its hind legs kicked hard, and with a whoosh, it pounced on the giant shark's right eye.

The giant shark was completely unprepared. Its right eye was directly turned into a bloody mess by the spiritual energy piglet, and the spiritual energy piglet also dissipated due to the exhaustion of spiritual energy.

That assassin was completely stunned!

Heavens, this little piglet of spiritual power actually knew how to feign death and deceive people? Was it going to become a spirit? How could an intermediate level physical transformation technique materialize such a nimble little piglet?

However, Yun Chujiu was overjoyed. Haha! She had already said that her little piglet of spiritual power would not be so weak! Thinking back to that time, there was a famous pig. Yes, it was that Pig Bajie. Didn't he manage a hundred thousand heavenly court sailors? Therefore, there was evidence that this pig could swim!

This time, Yun chujiu was much more confident. This spiritual piglet was much more powerful than the purple lightning. Furthermore, it could devour the opponent's spiritual beasts. It was really great!

Yun Chujiu faced the assassin and the steel-toothed shark and released more than 10 spiritual piglets.

These spiritual piglets changed from the previous spiritual piglet's ignorance. The moment they entered the water, they quickly swam towards the assassin and the steel-toothed shark. Moreover, they did not use their four short legs to paddle. Instead, they used their hind legs to kick the water, with a fierce leap, they could pounce onto the enemy's body. Seeing this, Yun chujiu could not close her mouth and smiled. Very good, very good. These little piglets were really too powerful! They were simply invincible little piglets!

She could not close her mouth and smile. That assassin was really unlucky!

Before he could recover from the perverse state of the little piglets, several little piglets had already pounced on him. He hurriedly released his spiritual ocean eel to block them. Who would have thought that the little piglets would swallow the spiritual ocean eel in just a few mouthfuls, then, they pounced on him even more ferociously.

Yun chujiu did not stay idle either. Although the Purple Lightning was not as powerful as the spirit power piglets, the purple lightning specialized in attacking vulnerable parts such as the eyes. It was truly a sneak attack on a small expert.

Although the assassin tried his best to resist, he still lost his life under the pincer attack of the spirit power piglets and the Purple Lightning. Once he died, his steel-toothed giant shark would also be finished!

The corpse of the assassin and the steel-toothed shark floated to the surface of the river, and immediately, the people of the nether world hall on the shore exploded!

“Oh my God, another one died! Didn’t Hall Master Yu say that they were very powerful? How did they get killed by Yun Chujiu in succession?”

“That’s right, they still couldn’t kill Yun Chujiu even with 10 of them and the demonic beasts? It seems like they were just bragging!”

“You can’t say that. I guess they didn’t notice it at the beginning. Aren’t there eight people? Maybe it will be Yun Chujiu’s dead body that floats up later!”
