

The Yun Family's Ninth Child is an Imp! Chapter 1511

The six demonic beasts aggressively swam to the front of the big ship and roared. However, they still did not see Yun Chujiu come out. They were so angry that they destroyed the big ship again.

However, they angrily found that there was still no one inside. Where did that damn brat go? Could it be that she abandoned the ship and ran ashore? It must be so! Chase! She definitely wouldn't be able to escape far!

The six demonic beasts clambered onto the opposite shore. After smelling the scent of a cultivator, they chased fiercely. Although they didn't manage to catch Yun Chujiu, they did manage to catch up to Hall master Zhu and the others.

Hall master Zhu and the others were on the verge of collapse. Why were these bastards still unwilling to let them go? They quickly scattered and ran in all directions. The six demonic beasts bit more than ten people to death.

The six demonic beasts were so angry that they roared. Where on earth did this damn brat go?

At this moment, Yun Chujiu was proudly cooking a small hotpot. While eating, she bragged, "Sister Luoyue, how about this trick of mine? Those bastards are probably going to die of anger!"

Nangong luoyue smiled and said, "Little Jiu, how did your little head grow? Those demonic beasts must have gone ashore to chase after us when they saw the second empty ship! How could they have thought that we had a third ship! ! "Oh right, where did you get so many ships?"

"There are many of them! I always prepare a large number of things. I'm not bragging, but if they continue to chase after us, I can even get ten or eight ships to confuse them! This is called an empty ship scheme!" Yun Chujiu said proudly.

This fellow was so beautiful!

This tactic of Borrowing Beasts to kill people was simply perfect! She had killed more than half of the people from the Netherworld Palace in one go. Even if she met the remaining people, she could still fight them. The crisis was basically resolved.

Nangong Luoyue and the others were completely impressed by Yun Chujiu. Regardless of her spiritual power, just her courage and strategy alone were incomparable to others. They originally thought that they would definitely die, but now, not only was the crisis resolved., she had even gotten rid of dozens of people from the Netherworld Palace. She was truly amazing.

"Little Jiu, what should we do next? Should we stay on the ship until the trial ends?" Nangong Luoyue asked.

The other five male students also looked at Yun Chujiu. Unknowingly, they had already regarded Yun chujiu as their backbone.

“If we stay on the ship, it will naturally be the safest. However, this trial will be a waste. Therefore, we should find a place to go ashore. Even if we meet those people from the Netherworld Palace, it’s not like we don’t have a chance of winning.”Yun chujiu burped and said.

Hearing Yun Chujiu’s words, Nangong Luoyue and the others nodded in agreement. They were unwilling to return empty-handed after entering the treasure mountain.

They rested on the ship for a night and went ashore at dawn the next day.

Yun chujiu randomly chose a direction and the group began to walk forward.

“Right, Sister Luoyue, have you encountered a stone rain after entering the mystic realm?”

Nangong Luoyue was stunned. “Stone Rain? I’ve never encountered it!”

“Then have you ever encountered a fireball in the Sky?”

Nangong Luoyue shook her head again. “Little Jiu, isn’t what you said too strange? Have you encountered all of these before?”

Yun chujia gritted her teeth and nodded. It seemed that those were the “Preferential treatment” given to her by the Qi Ling. Damn Qi Ling, just you wait. It’s fine if I can’t find you, but if I find you., i’ll make you tremble whenever you think of me!

“Sister Luoyue, didn’t you say that there are high-grade medicinal herbs, spirit tools, immortal tools, and even divine tools in the Burning Sky Mystic Realm? Where are those things? I thought they were falling from the sky!”
