

The Yun Family's Ninth Child is an Imp! Chapter 1515

"Of course, Vice Palace Master Liu is thinking about it. However, when the people of the Netherworld continent arrive at the Qing Xuan continent, their spiritual power will be greatly reduced, even more than the people of the Tian Yuan continent. Their spiritual power will be directly reduced to the level of spirit enhancement, so they don't dare to act rashly. "Moreover, the SAINTESS will not allow such a thing to happen. Otherwise, vice palace master Liu will use that wild man to threaten the SAINTESS." Sheng NV said

Yun chujie frowned. The gigolo had told her that the people from the Netherworld continent were not restricted to the Qing Xuan Continent. Could it be that the news the gigolo received was fake? Was it fake news spread by the people from the Netherworld continent? Was it used to confuse the gigolo?

Yun chujie was very interested in the Sheng nv from the Netherworld Palace for some reason, so she asked again, "Is Your Sheng nv good-looking?"

"Well, the SAINTESS always wears a veil. We haven't seen her face, but it is said that the SAINTESS is very beautiful, very beautiful," Sheng NV said

"Have you seen that man?"

Hall master Zhu still shook his head, "That man only works in the Saintess Palace, and he doesn't seem to be in good health, so very few people have seen him. Rumor has it that he is quite handsome."

Yun chujju asked a few more questions, and Hall Master Zhu answered truthfully. Yun chujju nodded. "Your performance is not bad. I hope that you will reincarnate well in your next life!"

After Yun Chujiu finished speaking, she used the large kitchen knife to cut hall master Zhu.

After Yun Chujiu killed Hall master Zhu, she was slightly stunned. A couple from the Qing Xuan Continent? And they were captured eleven years ago? Could it be her cheap adoptive parents?

Her grandfather said that her adoptive mother's background was unknown and she had the demeanor of a great family. Her appearance was also extremely beautiful. The more she thought about it, the more suspicious she felt! Forget it, it was better to leave this burning sky mystic realm first before making a long-term plan!

Yun chujju collected the storage rings of these eight people. After she used her spiritual sense to probe into them, she could not help but curl her lips. Could it be that the people from the hall of the Netherworld were all so poor? There were only a few pitiful spirit tools and not many spirit stones. However, there were quite a few shiny black small stones.

"What kind of ores are these?" Yun chujju curiously took out two of them and played with them.

"These are nether stones that are unique to the nether world continent. The people of the nether world continent can not only absorb the spirit energy in the spirit stones, but they can also absorb the spirit

energy in the nether stones. However, the people of the Tianyuan continent can't do that," Nangong Luoyue answered.

Yun chujiu smiled as she put away the Netherworld Stone. "Since that's the case, you guys can split those things. I'll keep the Netherworld Stone. In the future, when I do business with the people of the Netherworld continent, I might be able to use it."

Everyone..

Are you sure that what you said isn't nonsense?

The Tian Yuan continent and the Netherworld continent have always been at loggerheads, yet you still want to do business? ! Have you gone mad? !

Although Nangong Luoyue and the others felt that Yun Chujiu was daydreaming, they did not stand on ceremony with her and divided the remaining things among themselves.

After fighting side by side, it was very easy to eliminate the estrangement between people. In just over ten days of being together, the few of them had already established a relationship that surpassed that of ordinary classmates.

The seven of them took a short break and continued walking forward.

Yun chujiu mumbled as she walked, "In another ten days, this burning sky mystic realm will be closed. We have to hurry up. Why Can't we meet an ancient cultivator's cave abode?"

Yun Chujiu's eyes suddenly lit up. Haha, how could she forget that she still had a little expert in digging holes! Even if the ancient cultivator's cave was covered by a formation, Xiao Hei could still discover some clues.
