

The Yun Family's Ninth Child is an Imp! Chapter 1524

An hour later, there was not a single person left from the Netherworld Palace. They were all dead!

Yun chujiu curled her lips. "I gave you a chance, but you didn't grasp it. Are you blaming me?"

The giant aquatic dragon was very proud. Did you see that? This dragon's abilities were great! If it wasn't for me, all of you would have been killed! And you still look down on me? HMPH!

Yun chujiu glanced at it. "You still have the face to show off? If it wasn't for our help, at least half of the fish that escaped the net would have been released, you little loach!"

The arrogance that had just risen from the giant aquatic dragon was instantly extinguished by a basin of cold water, and it became dispirited once again.

Yun chujiu thought to herself, such a thing had to be attacked a few times for no reason, or else it would float away!

Yun chujiu asked Nangong Luoyue and the others to divide up the valuable items from the people of the Nether World Hall. Then, she continued to search for the caves of the ancient cultivators.

Xiao Hei quickly found another cave of the ancient cultivators. Yun Chujiu and the others managed to obtain the items without any danger. Although Yun Chujiu was not very satisfied, Nangong Luoyue and the others were very happy.

They did not have a nouveau riche like Yun Chujiu. They felt very satisfied just by sharing a few high-grade spirit tools.

In the next few days, Yun Chujiu and the others were quite lucky. They found a few more ancient cultivator's cave dwellings in a row. Nangong Luoyue and the others earned a lot of money and were very happy.

Yun chujiu pouted and muttered, "What happened to the immortal tool, Divine Tool, and opportunity? I can give up the immortal tool and divine tool, but where is the opportunity?"

Nangong Luoyue couldn't help but laugh and said, "Little Jiu, this opportunity can only be found by chance, not by seeking it. How can it be so easy to find it? There are still three days until the end of the trial, and perhaps you will encounter an opportunity."

Yun chujiu curled her lips. Opportunity? That damned tool spirit hadn't made any movements recently, so it might not be brewing some kind of evil move. However, Yun Chujiu was still thinking about it. Just as Yun Chujiu was thinking about it, Xiao Hei said with its spiritual sense, "Master, I found another cave abode!"

Yun Chujiu's eyes lit up, and she brought Nangong Luoyue and the others to the place where Xiao Hei was.

Unlike the cave abode that they had found previously, which was inside the rock wall, the entrance of this cave abode was actually the trunk of an ancient tree.

The trunk of the ancient tree required dozens of people to hold hands to surround it. The branches and leaves were flourishing, and it was impossible to tell that there was a cave underneath.

"Little Jiu, this is the nine heavens dome pine. It is said that some can live for hundreds of thousands of years. I think this nine heavens dome pine is at least tens of thousands of years old. However, the trunk of this tree is not very hard, and it is hollow. Therefore, even though the tree is very old, it is not worth much." Nangong Luoyue asked.

Yun Chujiu took out a rolling pin and knocked on it. Sure enough, a hollow voice came from inside. The corner of her mouth curled up. "It is indeed empty inside. Let's open a hole in the trunk and go in."

The group quickly opened a hole in the tree trunk. Yun chujiu used the night Pearl to shine a light inside. It was very deep inside, and she couldn't see what the bottom looked like.

Yun chujiu threw a few pebbles inside. After a long time, she heard the sound of falling to the ground. She didn't hear any other sounds, so there shouldn't be any danger down there.

“Sister Luoyue, you go down first. I’ll help you watch the rope. I’ll go down last,” Yun Chujiu said to Nangong Luoyue and the others.

After Nangong Luoyue and the others agreed, they climbed down the rope.

Yun chujiu waited for them to go down and put away the rope. As usual, she planted a few vines and climbed down with sticky threads.
