

The Yun Family's Ninth Child is an Imp! Chapter 1591

At the same time that Di Linhan and Bai Li made their move, Dean Huangfu and Xue Li also made their move. Their thoughts were the same as Di Linhan's. They wanted to take down Qin Yixiao and Yin Qinghua first.

Qin Yixiao and Yin Qinghua were obviously prepared. They suddenly jumped back and Di Linhan and the other two were blocked by an invisible barrier.

"Hahaha! Do you think that we are so brainless? Do you think that we will allow you to resist? This is our Yin family's strange dragon trap formation. Your struggles are futile!" Yin Qinghua laughed maniacally.

The people who were trapped were naturally cursing loudly. The more they acted like this, the more Qin Yixiao and Yin Qinghua were pleased with themselves. From now on, the powers of the Tian Yuan continent would have to be re-divided, and they would no longer be suppressed by the Temple of Immortals.

Di Linhan and the others waved their hands to signal for everyone to calm down. Since they had already fallen into the trap, it was better to think of a way to break the array now.

Someone took out a voice transmission talisman to inform the secret guards and his family, but found that the voice transmission talisman was not usable at all. He cursed angrily. It seemed that the Gui Yuan sect and Yin family had already made preparations. How sinister.

What was even more sinister was still to come. Everyone was horrified to find that their heads were dizzy and their eyelids were getting heavier.

Everyone relied on the pain of self-mutilation to get rid of the sleepiness, but the spirit energy in their bodies was actually rapidly disappearing.

Bai Li Qingtian turned pale with fright. As the “Medicine King” of the Tian Yuan continent, he had actually been poisoned. This was simply a great humiliation! Bai Li Qingtian hurriedly took out an antidote for the spirit devouring powder and swallowed it, but it was completely ineffective.

Di Linhan’s heart instantly sank. He thought of the matter with the Hall of Immortals. Could it be the netherworld powder? But the Netherworld Powder was the Netherworld Hall’s knockout drug, how could Qin Yixiao and Yin Qinghua have it?

“Qin Yixiao, where did you come from with this Netherworld Elixir? Could it be that the two of you have colluded with the Netherworld Palace?” Di Linhan decided to bluff.

Qin Yixiao was stunned at first, he then sneered: “I didn’t expect you to have such discerning eyes. That’s right, this is the Netherworld Elixir. Since you have already discovered it, there is nothing to hide. Our Gui Yuan sect and the Yin family have already formed an alliance with the Netherworld Palace. “After your forces have collapsed, we will redraw the boundaries of our forces.”

What?

Gui Yuan sect and Yin family had actually colluded with the Netherworld Hall?

“Qin Yixiao, Yin Qinghua, do you still have any sense of shame? As people of the Tian Yuan continent, you actually colluded with the Netherworld Hall. You are making an enemy out of everyone in the Tian Yuan continent!”Xue Li cursed loudly.

Yin Qinghua sneered, “There is no eternal enemy. We are just doing it for benefits! Cut the crap. If you know what’s good for you, you will surrender obediently!”

“F * ck your Bullsh * T! Your conspiracy will not succeed. Sooner or later, you will be punished. You will die a horrible death! You are the sinners of the Tian Yuan continent!”

Yin Qinghua’s old face turned red from Xue Li’s scolding, he gritted his teeth and said: “Xue Li, Go ahead and scold as much as you want! When all of your spiritual powers have dissipated, you will no longer have the slightest ability to resist. When that time comes, I will use you as hostages to threaten your respective powers. Let’s see how you can continue to be so arrogant!”

Xue Li cursed a few more words and then discussed the countermeasures with Di Linhan and the others.

Although some of the trapped people were proficient in arrays, but the Yin family's dragon trapping strange gate array was extremely complicated and there was no way to break it in a short period of time. The worst thing was that their spiritual powers were rapidly dissipating, even if they could break the array, they would probably have no choice but to surrender at that time.

Time passed quickly and the spiritual powers of Di Linhan and the others were dissipating rapidly, but they still had not come up with any good ideas.
