

The Yun Family's Ninth Child is an Imp! Chapter 1597

After Yun Chujiu ran for some distance, she activated the concealment talisman again and continued to run towards the courtyard where the secret guards were imprisoned.

Along the way, she encountered two more groups of patrolling people. Yun Chujiu narrowly avoided them, and only after two hours did she approach the courtyard where the secret guards were imprisoned.

Yun Chujiu's initial thought was quite simple. She thought that it would be the same as the time at the Temple of Immortals, where she would think of a way to sneak in and rescue them. However, when she got close to them, she realized that her thoughts were too naive.

Not counting the irregular patrolling disciples, that courtyard alone was surrounded by many Gui Yuan sect disciples. Moreover, Yun chujiu could not tell the cultivation base of some of them, so they must be at least at the eighth level of the spirit Saint Realm.

It was almost impossible to sneak in and save her without her knowing. Most importantly, she did not have any helpers, so she had no time to spare. There was no chance for her to sneak in. It seemed that she had to think of another way.

Yun chujiu squatted behind the bushes and thought hard. Finally, she came up with a bold idea. She quietly stood up and walked around for a distance before swaggering towards the courtyard.

Soon, a disciple noticed Yun Chujiu and shouted, "Stop! Who is it?"

Yun Chujiu said with a hoarse voice, "Senior brothers, I am here to deliver supper."

"Deliver supper? Is there such a good thing?" The leader asked suspiciously.

One of the disciples said, "Senior brother Gu, I know her. She is daybreak from the canteen. Perhaps the higher-ups have worked too hard to meet us, so they sent us supper."

Senior brother Gu still asked suspiciously, "Who asked you to deliver it?"

Yun Chujiu took out Chu Hu's token, "It was senior brother Chu Hu who arranged for manager Liu. He said that all of you have worked hard! The food at the Netherworld Hall is much better than yours. I feel a little guilty."

That senior brother Gu had some doubts at first, but when he heard Yun Chujiu's words, he believed her 90%. Firstly, he had Chu Hu's token, and secondly, this maid could not make up those words.

Some of the disciples were already impatient. They shouted, "Senior brother Gu, we already have senior brother Chu's token, so it can't be bad! We are all hungry now. Dawn, hurry up and bring out the food!"

Seeing that senior brother Gu didn't say anything, Yun Chujiu started to bring out the dishes one by one. She was glad that she had stored a lot of food from the Heavenly Yuan Academy's canteen. Otherwise, it would have been difficult to handle.

When the disciples saw the steaming dishes, they immediately started to eat. Even senior brother Gu picked up his bowl and chopsticks and started to eat with the others.

Yun Chujiu's eyes flickered a few times. Eat It, eat it. This was her way of giving someone a taste of their own medicine. She remembered that the Netherworld Elixir was found on the bodies of the people from the Netherworld Palace.

"Senior Brothers, you guys eat. I'll leave first. I'll just send the cutlery back to the canteen tomorrow." Yun Chujiu was afraid that these people would find out that something was wrong with her, so she found an excuse to escape. Of course, she would not run too far away, instead, she took a detour and hid behind the bushes to secretly look outside.

After about an hour, those people began to feel sleepy. However, they thought that it was already late at night, so they didn't doubt it. Yun chujiu knew that the opportunity had come.

After she activated the concealment talisman, she quickly rushed over!

The disciples were all sleepy. When they found Yun chujiu, Yun Chujiu was already in front of them. Yun chujiu waved a big bag of sleeping powder at them.
