

The Yun Family's Ninth Child is an Imp! Chapter 1603

Di Linhan and the others caught the antidote and stuffed it into their mouths. Their spiritual powers gradually recovered. Although they had only recovered a portion of their spiritual powers, the people from the Hall of the Netherworld could not hold on any longer and all of them fled in all directions.

Dharma Protector Zhao saw that the situation had turned for the worse and gritted his teeth. With a faint, he fled as well!

Yun chujiu shouted: "Ignore them and quickly retreat into the courtyard. Stay alert around the courtyard and prepare for the next round of battle."

The Secret Guards did not care whether their master agreed or not. They just spread out according to Yun Chujiu's instructions and began to stand guard.

Those mighty figures rubbed their noses. Alright, our subordinates have been subdued by the little girl in such a short time?

Before those mighty figures could say anything, yun chujiu said, "Don't thank me yet. Quickly meditate and recover your spiritual power. I reckon that the Netherworld Hall won't be able to do so little. There must be a big move waiting for us!"

Those almighty experts had no choice but to start meditating and recuperating. In order to prevent them from escaping, they were given a lot more devouring spirit powder than those secret guards.

Therefore, although they had taken the antidote, in order to recover to their best condition.., they would need to recuperate for a period of time.

Just as Yun Chujiu finished giving her instructions, Qin Yixiao and Yin Qinghua led their disciples and surrounded the courtyard.

Yun chujiu could not help but feel a bit of a toothache. The number of people on the opposite side was more than ten times that of our side. Even if they were tired, they could exhaust us to death!

Most importantly, this was Gui Yuan sect's territory. They had the geographical advantage, and our side was at a disadvantage everywhere.

Qin Mingzhu followed behind Qin Yixiao. When she saw the clothes on Yun Chujiu's body and the scars on her face, she immediately blurted out, "You pretended to be Dawn?"

Yun chujiu giggled, "Qin Mingzhu, you are quite smart! Then I don't understand why such a smart person like you would do such a stupid thing.?"

You guys have formed an alliance with the Netherworld Palace. Isn't this like asking a tiger for its skin? Aren't you guys afraid that the Netherworld Palace will not keep its word after the deed is done? If the powers like the Temple of Immortals do not perish, everyone will have to work together to fight against

the Netherworld Palace. With Just Your Gui Yuan sect and Yin family, won't they be gnawed until not even bones are left?"

Qin mingzhu sneered, "Yun Chujiu, you don't have to be so glib. You should mind your own business first. After what you've done, the only difference is that we have one more hostage! Do you think you can escape?"

Yun chujiu rolled her eyes, "Tsk!" Of course, we can escape! The most important thing in a war is the essence, not the quantity. Let's not talk about you people, just those trash from the Netherworld Palace are too weak! "They can't even hold a hostage, yet they still dare to dream of conquering our Netherworld continent. They really overestimate themselves!"

Hearing Yun Chujiu's words, Dharma Protector Zhao's eyes turned red, as if he was hesitating about something, yun chujiu continued to say, "And that Dharma Protector Zhao, he even called himself a Dharma Protector? Ptui! Not only is his spiritual power low, but his brain is also not functioning properly. He's simply an idiot. I don't know how he became a Dharma Protector. Could it be that he bought it with money?"

Dharma Protector Zhao was silent for a moment with an inexplicable expression, then, he smiled coldly and said, "Yun Chujiu, no Wonder Vice Palace Master Liu said that you can't be underestimated. I really underestimated you! "You really have a belly full of bad water. However, I'm afraid that you'll be disappointed! "Now that our side has the absolute advantage, why do we need to bring out our trump card?"

Yun chujiu cursed in her heart. Damn it, he's still quite smart! They actually didn't fall for it. What was their trump card?
