

The Yun Family's Ninth Child is an Imp! Chapter 164

"Junior Sister Little Jiu, could it be that the thing below is alive?" Feng Ming's eyes lit up as he asked Yun Chujiu.

"I don't know either! However, I feel that even if a rolling pin is buried underground for 10,000 years, it should have gained sentience, right?" Yun Chujiu said casually.

Everyone originally had high hopes, but after hearing Yun Chujiu's words, they were instantly discouraged. It turned out that she was just spouting nonsense!

"Nonsense! This is simply nonsense! Do you think that things can just give birth to intelligence? What's more, a rolling pin! Nonsense!"

"I told you, there won't be anything down there. Hurry up and fill up the soil!"

"Although Yun Chujiu has only entered the sect for a short period of time, she has caused a lot of trouble. She must be severely punished!"

Yun Chujiu blinked her eyes. Severely punished her?

'F*ck! You still dare to say that?! Did I drag you here, or did I kidnap you?!'

'Don't you know what an uninvited guest is? You are!

'You really are shameless!'

Of course, these words were all secretly criticized by Yun Chujiu. She did not have the courage to openly seek death.

Just as everyone was discussing, the ground of the entire Southern Jade Square began to tremble! A faint light could be seen from under the soil.

Master Xuanyuan was stunned for a moment before he shouted, "Set up the formation!"

The five peak masters were the first to react. They sat down cross-legged in various directions. Six streaks of spiritual energy shot into the sky and a curtain of light enveloped the entire square.

The six of them had set up a Spirit Radiance Star Formation. It could not only isolate the spiritual energy from leaking out, but it could also isolate the prying eyes of the outside world.

Everyone was extremely excited. There really was a rare treasure!

A treasure that had existed since ten thousand years ago must be an immortal item! The appearance of such a rare treasure would definitely cause an earth-shattering phenomenon. If others were to target it, it would be too much of a loss!

Everyone's eyes were fixed on the brown soil. Yun Chujiu's heart was especially excited and conflicted.

She was excited because her guess was right—there was indeed a treasure down there. She was conflicted because there were so many hungry wolves guarding there. Even if there was a treasure, she would not be able to reap the benefits! She was so upset, she wanted to vomit blood!

The ground was trembling more and more violently. The light emitted from the ground was so bright that people could hardly open their eyes.

An immortal item! It must be an immortal item!

Everyone was so excited that they were slightly trembling. How great of a blessing it was to be able to see an immortal item appearing in the world!

At the moment when the light was at its peak, a streak of black light shot out from underground and flew straight into the sky.

Fortunately, Master Xuanyuan and the others had already set up the Spirit Radiance Star Formation. After that streak of black light crashed into the curtain of light, its speed slowed down for a moment before it struggled to escape.

Seeing that the situation was not good, Master Xuanyuan hurriedly shouted, "Everyone, quickly lend a hand to the six of us."

The elders, including Feng Ming, sat behind the six of them and transferred their spiritual power into the bodies of Master Xuanyuan and the Five Peak Masters with their arms.

The Spirit Radiance Star Formations's curtain of light became more and more solid. After the black ray crashed into it a few times, it still could not escape. It could not help but dive down in a fluster, looking like it was going to kill someone.

When the black ray rushed down, it realized that other than the people who set up the array, there was also a tan girl sitting on the green stone slab eating a bun. Beside her, there was an ugly bird pecking at the bun and eating it. It could not help but be a little dumbfounded.

Actually, this matter was not bad. Yun Chujiu was really heartless as she thought about it that way. The treasure did not belong to her, so why should she get involved! She still had two buns left from what Feng Ming had given her, so she ran to the side with Little Black to eat the buns.
