

## The Yun Family's Ninth Child is an Imp! Chapter 1640

Yun chujia could not help but curse in her heart. Was she going to stand in a military posture? However, for cultivators, standing for four hours was not a problem. It was just that there might be some kind of trouble in the middle!

The girls did not expect that the first day would be such a training content. Although they did not understand, they still stood obediently.

Rushuang and Ruyi shouted from time to time, "Stand up straight. If you bend your waist, you will get a point deducted."

"Don't bend your legs. If you bend, you will get a point deducted."

"Put your hands on your sides. Don't move, or you will get a point deducted."

..

Two hours later, no one moved, and no points were deducted.

Just when the girls felt that the content was too simple, Zhao Mama's lips curled into a cold smile.

Zhao Mama raised her hand, and a cage appeared on the ground. Inside it were several golden spotted nether snakes.

After those golden spotted nether snakes were released, they crawled toward the girls with their tongues sticking out.

“Ah! Snakes!”The four girls standing at the front immediately cried out in surprise and subconsciously tried to dodge.

“Shen Zimo, Li Qianqian, Ning Xin ‘er, and Liu Qiuyue will be deducted one point each!”RU Shuang said coldly.

The four girls were stunned at first, then they returned to their original positions with terrified expressions, afraid that they would get deducted points again.

The golden-spotted nether snakes were crawling around under everyone’s feet. Seeing this, the girls could only grit their teeth and stand in their original positions. They were certain that these snakes would not attack them, if anything happened to them, the nether world hall would not be able to answer to their families.

After 15 minutes, the golden-spotted nether snakes began to climb up the girl's legs. Immediately, some of them could not hold on any longer and started to pull the golden-spotted nether snakes down in fear, letting out cries of alarm.

"One point deducted from Yuan Xianyue!"

"One point deducted from Bai Siyan!"

"One point deducted from Lu Qin!"

..

Those golden-spotted nether snakes should have been trained, so they only climbed onto the girls without hurting anyone. However, almost all the girls who were entangled by the golden-spotted nether snakes would be unable to control themselves and pull the snakes down. This thing was really too scary.

The sound of points being deducted kept coming. Zhao Mama glanced at the forms on the Ruyi pair. Only one person had not been deducted points. Lin Chujiu?

Zhao Mama looked at Yun Chujiu and saw a golden-spotted nether snake climb onto Yun Chujiu's shoe. However, a moment later, the golden-spotted nether snake retreated from Yun Chujiu's shoe, it turned around and climbed onto the leg of a girl in front of it. The girl immediately cried out in surprise.

Zhao Mama could not help but be stunned when she saw this. She had ruyi drive a golden-spotted nether snake towards Yun Chujiu.

Soon, the golden-spotted nether snake also gave up and turned around to attack the other girls.

Zhao Mama could not help but feel puzzled. When she wanted to drive the golden-spotted nether snake to climb towards Yun chujiu again, four hours had passed. She had no choice but to drive the golden-spotted nether snake back into the cage.

Zhao Mama Glanced at everyone. "Some people have already lost four points in half a day. If you guys are still like this, I believe that someone will be eliminated very soon! "Rest for one hour and I'll give you guys lunch. We'll gather on time after one hour."

When everyone heard Zhao Mama's announcement, they immediately began to use the cleaning spell. This golden spotted nether snake was really too disgusting!

Yun chujiu was staring at the door. It was almost lunchtime, and they were about to start fighting for food. Just thinking about it made her a little excited!
