

## The Yun Family's Ninth Child is an Imp! Chapter 1651

Yun chujiu blinked her eyes and suddenly realized that this vice palace master Liu was quite shrewd. With such a setup for the second round of the assessment, there would definitely be many young ladies from large clans being selected. If that was the case., even if the candidates from large clans were eliminated in the third round, those large clans would not be able to find anything wrong with it.

Taking a step back, although such a setup for the second round of the assessment would be beneficial to the candidates from large clans, there would definitely be some lucky people without any background who would pass the second round of the assessment. This way, they would not be found out by others and would not affect the final selection, this vice palace master Liu was really scheming.

When the young ladies who participated in the second round saw the contents of the second round, naturally, some were happy while others were worried!

The four people from the gold group had smug expressions on their faces. Although only Shen Zimo and Ning Xin 'er could use the power of the netherworld, they had been cultivating the power of the Netherworld for several years, it wouldn't be a problem for them to get first place.

Mo Wanwan and the other two were discouraged. Although the three of them could use the power of the netherworld, they had only just learned it. How could they surpass the gold group?

Mo Wanwan and the other two looked at Yun chujiu habitually. They held a trace of hope that Yun Chujiu would have a way to win.

Yun chujiu couldn't help but smile bitterly. Damn it, if she could help by testing her spiritual power, she wouldn't be able to use the damn power of the Netherworld at all!

Just as Yun Chujiu's thoughts were running wild, she heard someone laughing contemptuously. Yun chujiu turned her head and saw that the person laughing was Jin Zhi.

When Jin Zhi passed by Yun Chujiu's side, she whispered, "Ugly Freak, so what if you relied on your methods to enter the second round? You will definitely lose this round! You ugly and poor trash!"

Yun chujiu smiled at her. Just when Jin Zhi did not know what Yun Chujiu meant, she heard Yun chujiu say in a clear voice, "Zhao Mama, this Jin Zhi said that everyone in our group is trash!"

Zhao Mama looked at Jin Zhi coldly. "The test is over. Leave Now or you will be disqualified."

Jin Zhi gritted her teeth in anger and glared at Yun Chujiu before leaving.

Yun chujiu pouted. How could a brainless person fight with her? She was looking for trouble. But how could she pass this round? She was so worried!

Soon, it was the turn of Zhao Mama's group. The four members of the gold group walked to the designated test site. Shen Zimo and Ning Xin'er bit their index fingers and began to chant.

The remaining Li Qianqian and Liu Qiuyue did not have the power of the Netherworld at all, so they stood aside and cheered. They were very confident that their gold group would definitely win. As long as they passed this round., they would definitely not compete with the power of the Netherworld in the next round. They might even be the winners!

As Shen Zimo and Ning Xin'er attacked, the number on the display screen kept rising. The two of them used all their strength to attack. Unfortunately, the display screen only showed the peak of their attack power, no matter how long they attacked, it was useless.

Seeing that their attacks were useless, the two of them could only stop attacking. The number on the display froze at 2,000.

Shen Zimo and Ning Xin'er looked at each other and smiled. This result was already quite good. The groups that had obtained the first place in the previous large groups were only around 1,800. Therefore, they could definitely advance.

When the other four groups saw the heaven-defying results of the gold group, their hearts immediately thumped. It was over. They simply could not surpass the gold group. They definitely would not be able to pass the second round of the test.
