

The Yun Family's Ninth Child is an Imp! Chapter 1653

The crowd could not hear what Yun Chujiu was saying clearly and thought that she was chanting normally. They could not help but curl their lips. This Lin Chujiu was not able to grasp the power of the Netherworld at all, yet she still went up to join in the fun. She was simply asking for humiliation, this group of earth had no hope of winning at all. It was just a waste of time.

Mo Wanwan was afraid that Yun Chujiu would do something funny again. Just as she was about to signal for Lu Qin and Zhou Yinghan to end the test, she was stunned by a loud bang.

With a bang, the test ball actually exploded!

Everyone was stunned by this sudden turn of events. The test ball could withstand tens of thousands of attacks. How could it suddenly explode?

Just as everyone was stunned, they heard someone say excitedly, "Hahaha! We're the first place! We've passed the Test!"

When everyone saw that it was Lin Chujiu who was jumping around happily, everyone thought to themselves, could it be that Lin Chujiu was scared out of her mind?

They were the first place?

In their dreams? They wanted to be the first place with 800 attack power? They were definitely in last place!

Mo Wanwan recalled Yun Chujiu's previous actions and thought to herself, it's over. Chujiu must have wanted to pass the test too much, so there must be something wrong with her brain, hence, she walked to Yun Chujiu's side and advised, "Chujiu, we... We're eliminated. Let's go down!"

Yun chujiu pointed at the display screen and said excitedly, "Wanwan, our numbers have soared to one million. How can we be eliminated? We're in first place!"

Mo Wanwan was stunned. She looked in the direction Yun Chujiu was pointing at and saw that the number displayed on the display screen was actually one million..

Everyone looked up at the display screen at this moment. When they saw the one million displayed on it, they were also stunned. What was going on?

Shen Zimo immediately said loudly, "The testing ball must have malfunctioned, so the display screen also malfunctioned. This result can't be counted! "As everyone can see, your highest attack value is only 800. You guys are eliminated. The first place goes to our gold group!"

Ning Xin 'er and the other two also echoed loudly, "That's right! You guys are too shameless! That display screen clearly malfunctioned. It's not your result at all."

"Three rookies who just learned the power of the Netherworld and an idiot still want to surpass us? What wishful thinking!"

"Hurry up and come down. Don't embarrass yourself there. You guys are eliminated!"

Mo Wanwan and the other two looked at each other. They knew that there must be something wrong with the display, so they were ready to leave.

Unexpectedly.., yun chujiu sneered, "There's nothing in the rules. If there's something wrong with the display, it doesn't count, right?" "When it's our turn to test, there's a problem with the display. This means that we're lucky. This luck is also a type of strength, right? "If you guys aren't convinced, why are you causing problems with the display? "Zhao Mama, you're the most fair. Tell us, are we the first place?"

Zhao Mama obviously didn't expect this to happen. She was silent for a moment. "You guys go back to the dormitory and wait for the notification. I'll inform you later. Rushuang, Ruyi, bring them back to the dormitory."

After Zhao Mama said that, she turned around and left the courtyard. Yun Chujiu and the others could only follow Rushuang and Ruyi back to the dormitory.

Once Rushuang and Ruyi left, Shen Zimo sneered and said to Yun chujie, “Lin Chuchu, there was clearly a problem with the display screen, but you were shameless enough to admit that you were wrong. You Are Really Shameless!”
