

The Yun Family's Ninth Child is an Imp! Chapter 1656

After hearing Mei's words., shen Zimo said loudly, "Originally, the four of us were the winners of our group. However, when Lin Chuchu and the others were testing, their numbers were only 800. However, because the display screen was broken, they shamelessly said that they were the first place. That was why they shamelessly advanced. Therefore, we should let them live in that small side room."

Ning Xin 'er and the other two also chimed in one after another, telling them what had happened.

After hearing what Shen Zimo and the other two had to say, Jin Zhi was stunned, she said disdainfully, "I was wondering how a piece of trash like Lin Chuchu could have passed the second round of the test. It turns out that he got lucky!" "He's really thick-skinned. Since you guys passed the test without a proper title, you should stay in a small side room."

Some people also echoed, "That's right. It's already good enough that you guys can stay in a small side room. If it weren't for the people from the Netherworld Hall being reasonable, you guys would have been eliminated long ago."

"That's right. Anyway, the four of you will be eliminated the day after tomorrow. It's only two nights. You guys can stay in a small side room!"

..

Mo Wanwan and the other two were very angry, but the four of them were now isolated and didn't give them a chance to speak.

Fifteen minutes soon passed and everyone said to Tingmei, "Lin Chuchu and the other two are willing to live in a small side room!"

Tingmei witnessed the entire process and naturally knew that Yun Chujiu and the other two were not willing, but what did this have to do with her, thus, she said indifferently, "Since that's the case, Lin Chuchu and the other two can live in a small side room. Alright, dismissed."

After hearing that Mei and the other two had left., Yun Chujiu sighed. "Sigh! I'll stay in the small side rooms then. Originally, I wanted to choose the few rooms with good lighting in the middle, but it seems that I don't have the chance. I don't know who can stay in those few rooms. It's probably Shen Zimo and Jin Zhi. After all, their backgrounds are quite powerful."

After listening to Yun Chujiu's words, some people's eyes flickered. Although the remaining ten rooms were much better than the small side rooms, there were also good and bad rooms. How were they going to allocate them?

The alliance that everyone had just formed immediately collapsed. They were quarreling endlessly over those good dormitories.

Yun chujiu curled her lips. Let's fight, let's fight! It would be better if they started fighting! Yun Chujiu gave Mo Wanwan and the others a look and the four of them walked towards the small side room.

Qing Lan stared at Yun Chujiu's back and a deep thought flashed through her mind. This Lin Chujiu must have said those words on purpose, right? Her thoughts were really deep.

Zhou Yinghan opened the door of the small side room. There was no place for her to set foot in, let alone a bed. It was filled with debris and dust.

"F * ck! Is this a place for people to live? There's not even a bed. How are we supposed to live here?" Zhou Yinghan said unhappily.

Yun chujiu said nonchalantly, "Do it yourself. You'll be fine after tidying up! Wanwan, go look for Tingmei and the others. Ask them for four beds. They'll definitely give it to you."

Mo Wanwan nodded after listening and went to look for Tingmei and the others.

Yun Chujiu and the other two started to clean up the mess. Yun chujiu waved her hand and the mess disappeared from the spot. She kept it into her storage ring.

The dust in the house was also easy to deal with. After using the cleaning spell a few more times, the dust was cleaned up.

After Yun Chujiu and the others finished cleaning up, Mo Wanwan returned happily. Tingmei did not make things difficult for her and gave her four beds directly.

After the four of them had made up the beds, everyone looked at the newly renovated small side room and could not help but smile at each other. Actually, many times, things were not that bad. As long as you faced it positively, everything would become better.
