

The Yun Family's Ninth Child is an Imp! Chapter 1658

After Zheng Mama finished speaking, she immediately turned around and left the courtyard. Tingmei and the others also returned to the dormitory. They actually handed these young girls over to these guards.

The young girls were clearly confused. What was the meaning of this? Letting these guards teach them?

One of the guards smiled at the young girl he was in charge of. "Miss Mingzhu, let's go over there. I'll demonstrate the Netherworld sword style to you."

The girl's face turned slightly red as she nodded and followed the guard to a corner of the courtyard. The guard called out a treasure sword and with a flash, the treasure sword flew up and down at an increasing speed, in the end, only sword lights could be seen. This netherworld sword technique was indeed very exquisite.

The girl could not help but be stunned. After the guard withdrew the sword technique, she was still in a daze. The guard smiled faintly and said, "Miss Mingzhu, I'll explain the technique to you now."

Only then did the young girl regain her senses and said in a slightly flustered manner, "Alright, let's Begin!"

..

When the other young girls saw this, they also chose a place to start learning the Netherworld sword technique. After all, time was precious, and they could not waste it!

After a while, everyone began to practice, with only two people still standing in their original spots.

The guard named You Chi felt a little creeped out at this moment. Oh God, was the young lady who chose him crazy? Why was the way she looked at him so scary? It was as if she wanted to sell him off!

“Miss Chujiu, I, let’s start learning sword techniques too!” You Chi couldn’t take it anymore and said.

Yun chujiu nodded with a smile. “Sure, show me once.”

You Chi saw that Yun Chujiu finally stopped looking at him like she was waiting for a good price. He let out a sigh of relief and summoned his sword to demonstrate the netherworld sword technique.

“Miss Chujiu, I’ll explain each move to you now,” You Chi said after he finished demonstrating.

Yun chujiu shook her head. "No, I haven't seen enough yet. Show me again."

You Chi was stunned, but he couldn't disobey her, so he raised his treasured sword and demonstrated the netherworld sword technique once again.

"Miss Chujiu, can we break down the moves and learn them now?" You Chi asked again.

"No, show me again. I'll see again," Yun Chujiu said with a smile.

Although You Chi didn't understand, he could only demonstrate the netherworld sword technique again. He wiped the sweat on his forehead with his hand and said, "Miss Chujiu, can we learn the breaking down sword technique now?"

Yun Chujiu took out a chair from her storage ring and said, "No rush, no rush. You played the sword very well. Show me a hundred and eighty times more."

You Chi stumbled and almost fell to the ground!

One Hundred and eighty more times? was he trying to tire him out? !

“What? You Don’t want to? If you really don’t want to, I’ll ask them to change a guard for me!” Yun chujiu crossed her legs and said with a smile.

You Chi gritted his teeth. “I do. I’ll show you right away.”

Thus, you chi and Yun Chujiu became a unique scenery in the courtyard.

The other girls and guards were learning and explaining each move, but these two people were better off. One was leisurely sitting on a chair to watch the show, while the other was sweating profusely and demonstrating the netherworld sword technique over and over again.

You Chi’s heart was like a dog’s. He must not have opened the almanac when he went out today. Otherwise, why would he meet such a pervert? This was going to tire him to death!
