

The Yun Family's Ninth Child is an Imp! Chapter 1665

That night, you chi was carried back by his colleagues.

“You Chi, this Lin Chuchu is too much! In the assessment tomorrow, we will eliminate that Lin Chuchu at the risk of being reported by that Zhao Mama!”

“That’s right, US men were actually threatened by a little girl. It’s a great shame! You Chi, you can persist for another morning tomorrow. We will eliminate her in the afternoon!”

You Chi said weakly, “Then thank you all. I’m exhausted. I’m going to sleep first. You guys can just put me directly on the bed.”

Hearing You Chi’s words, everyone felt that Lin Chuchu was really vicious. She had actually exhausted people to such an extent. They had to eliminate her tomorrow!

The next day, you chi gritted his teeth and summoned his treasured sword. Just as he was about to demonstrate the Gabriella sword technique., he heard Yun chujiu say, “You Chi, I thought about it last night. It’s a little too much for me to torment you like this, so I’ve decided to change my ways. I Won’t torment you today. Sit Down and rest!”

After Yun Chujiu finished speaking, she took out a chair and gestured for You Chi to sit down.

You Chi couldn't believe his ears. Oh God, could it be that the sun had risen from the north? The Little Devil had turned into a little fairy?

You Chi asked suspiciously, "Miss Chuchu, is what you said true?"

"Of course it's true. It can't be any more true! Quickly sit down! Let's Chat!" Yun Chujiu said with a smile.

You Chi was overwhelmed by the favor. He stuttered, "Miss Chuchu, I won't sit. Why Don't I teach you how to dissect the moves?"

"No Rush, no rush. Let's chat first. There's still time to learn it later."

You Chi saw that Yun chujiu spoke sincerely, so he could only sit down.

"Sigh, you chi, actually, I didn't mean to torture you. You might not know my background." Yun chujiu let out a long sigh, and her eyes turned red.

The little black rat in the spirit beast bag immediately lit a candle for you chi. A black-hearted master was a set trick to trick people. You Chi, Ah, you're going to board the pirate ship!

You Chi saw that Yun Chujiu looked like she was about to cry and said in a panic, "Miss Chujiu, you, you..."

"Actually, my background is very miserable. When I was ten years old, both my parents passed away due to illness. I didn't have any other relatives, so I became an orphan. "Other girls have parents and brothers. As for me, I'm alone. You Don't know that I'm most afraid of celebrating holidays and birthdays. Seeing Other People's happy family reunion, but I'm alone, it's really painful."Yun Chujiu said with a slight sob.

You Chi's eyes were also slightly red. Most of these guards were orphans or abducted, so he didn't have any parents or relatives. Hearing Yun chujiu say this, he couldn't help but think of his own background.

Yun chujiu continued, "I wanted to have a brother since I was young. I watched the neighbor's little girl bully her brother, and I was really envious! "So, I've been torturing you these past two days on purpose, wanting to feel what it's like to have a brother who is tolerant.

"However, I thought about it last night. What I did was too selfish. I've tormented you too miserably. You Chi, I'm sorry! "You can just sit here and rest today. If worst comes to worst, I'll just be eliminated. It's not a big deal. "An orphan like me would never be the successor of Sheng NV. I know my limits."
