

The Yun Family's Ninth Child is an Imp! Chapter 1667

Very quickly, all the guards raised their right hands. Yun chujiu actually passed again — unanimously!

Jin Zhi and the others were stunned!

Mo Wanwan and the other two were stunned!

Zheng Mama was also stunned!

How, How was this possible? Lin Chuchu's Gabriella sword technique was full of mistakes. How could she pass? Were there any problems with these guards' eyes?

Jin Zhi questioned angrily, "This Lin Chuchu's swordsmanship is full of mistakes. Why did you let her pass?"

"That's right. You have to give us an explanation, or else we will protest!" Shen Zimo echoed.

The rest of the people also joined in the jeering. Although they did not have any enmity with Yun chujiu, it was always good to have one less competitor.

Although Zheng Mama was not willing to eliminate Yun chujiu, she did not want to go too far. Hence, she coughed, then, she said, “What they said makes some sense. Lin Chuchu’s Gabriella sword technique is not very proficient. Why did you let her pass?”

You Chi and the guards had already thought of an excuse, therefore, they said calmly, “Zheng Mama, everyone, although Lin Chuchu’s sword technique has a few mistakes, she has used the essence of the Gabriella sword technique. For example, the move where life and death depend on each other...”

Yun chujiu gave you chi thirty-two thumbs up in her heart. She did not expect you chi to be so good at lying. If she was not the person involved, even she would have believed him!

After You Chi finished speaking, the other guards also cooperated and said a few words. Zheng mama was not very proficient in sword techniques, so she was confused. She was puzzled. Could it really be because of this?

“Alright, in that case, Lin Chuchu should return to the team. You have passed too!”Zheng Mama said to Yun Chujiu.

Although Jin Zhi and Shen Zimo felt that you chi’s words were a bit far-fetched, they did not find any reason to refute. They could only watch as Yun chujiu hopped back into the team.

“All of you have passed the swordsmanship test. Not Bad! What you need to practice next is the actual combat effectiveness of the swordsmanship. Tomorrow morning, I will lead you into the Asura array.

There are many demonic beasts transformed from the array inside the asura array. You can only use the netherworld sword technique and the azure falling sword technique to attack those demonic beasts. If you use other methods to attack them, you will be directly ejected and eliminated.

However, you can rest assured that you will not really die inside. After you die, you will be resurrected. The demonic beasts you kill are your results. If you can not kill twenty demonic beasts within a day and a half, you will be eliminated. Do you understand?”Zheng Mama said in a deep voice.

“I understand!”The young girls answered in unison, but they were very nervous. Although the Netherworld sword technique and the azure falling sword technique were not bad, they did not know what level the array beasts in the asura array were at. Could they be completed?

“Right, your guards will go in with you. In the array, you can only see you and your guards. Other people can't see you, so you don't have to dream of seeking help from others. You can only rely on your own and the guards'abilities to kill the demonic beasts. “Alright, dismissed!”Zheng Mama added and left.

Yun chujiu cursed in her heart. This vice palace master Liu really knew how to use tricks. He placed the guards and the young girl alone in the dangerous array. If a hero came to save the beauty, the young girl's heart would naturally be stirred up, he really knew how to play!

After Yun Chujiu finished complaining.., she walked in front of you chi and said, “You Chi, thank you very much! “I didn’t expect that you would help me this much. I swear that if I, Lin Chuchu, can really become the successor of the Saintess, I will definitely repay your great kindness. If I violate this oath, I will let, I will let the heavenly lightning strike me to death!”Sheng NV said
