

The Yun Family's Ninth Child is an Imp! Chapter 1738

"Aiya, mother, back then, your son-in-law was poisoned by the cold poison. I easily cured him. Then, your son-in-law gave his body to me and cried and shouted that he wanted to marry me. My heart softened and I got along with him. Hehe." Yun chujiu shamelessly made up a lie.

Sheng nv did not know the twists and turns in the story and indeed believed it. "Little Jiu, is what you said true? Can you really cure your father's cold poison?"

"It really can't be any more true. However, this will take some time, and it can't be eradicated immediately. It'll probably take a year."

"I've been waiting for more than ten years, so it won't be any different from this year! Come with me to see your father. He'll be very happy to see you," Sheng NV said happily.

"Mother, I can't see Father Right now. First, Vice Palace Master Liu knows that you value father very much. If you rashly take me to see Father, he'll definitely be suspicious." "Second, Father's health isn't very good. It's not good for his health if his mood fluctuates too much after seeing me. "Even when you talk to him, you should take it easy and let it permeate bit by bit," Yun Chujiu said after thinking for a moment.

The SAINTESS patted Yun Chujiu's little head approvingly. "Little Jiu is really smart. Even mother didn't think so much. Mother will listen to you. Then let's discuss the next step of the plan between the two of us."

Yun chujiu and the Saintess discussed for a day, but they didn't have any good ideas. Sheng NV and Yun Chujiu didn't have any good ideas, therefore, yun chujiu said, "Mother, we still need to take a long time to think about this matter. When you go back, think about it again. Is there any way to get the Jin family to cooperate with us? If we have the help of the Jin family, our chances will be higher."

After the SAINTESS nodded and agreed, the mother and daughter went back to their respective residences. Sheng NV and Yun Chujiu went back to their respective residences.

The Sheng nv felt that she had drifted back to her residence. Seeing the Sheng NV's strange expression, yun Zhangqing asked, "Biyun, what happened? How is Lin Chuchu doing?"

The Sheng nv wished that she could tell the truth at once, but when she recalled Yun Chujiu's words..., she could only suppress the excitement in her heart and say, "Husband, I think that Lin Chuchu really wants to help us. Moreover, the more I look at her, the more she looks like little jiu. Do you think that she is little jiu?"

"Biyun, do you Miss Little Jiu so much that you have an illusion? How could little jiu come to the Netherworld continent in the Tian Yuan continent? Besides, isn't Little Jiu a heavenly thunder spirit root? That Lin Chuchu is a fire spirit root." Yun Zhangqing shook his head and smiled bitterly, he felt that the Holy Maiden's idea was very unrealistic.

"Perhaps she has some cultivation technique that can change the output of spirit energy! I will test it again tomorrow. husband, what do you think will happen if that Lin Chuchu is really little jiu?"

“If that Lin Chuchu really is little jiu, I’ll naturally be very happy. However, the possibility is too small. Biyun, since that Lin Chuchu is trustworthy, then you should think of a way to get her to help you stall for some time. Who knows, when that time comes, little jiu might really be able to come and save us.”

Seeing that Yun Zhangqing had said so, the holy maiden could not directly say that Lin Chuchu was little jiu. She decided to wait a few days before telling him the truth.

The next day, the SAINTESS arrived at the main hall without even having breakfast. She wanted to see Yun Chujiu earlier than Sheng NV.

Yun Chujiu had also arrived early. After the mother and daughter had eaten breakfast, yun chujiu handed a few porcelain bottles to the SAINTESS. “Mother, this is a medicine to treat cold poison. Let father drink one bottle every day and his body will recover.”

After the SAINTESS took it, she opened the bottle cap and smelled it. She couldn’t help but frown. “Little Jiu, what’s inside? Why is there a bloody smell?”
