

The Yun Family's Ninth Child is an Imp! Chapter 175

Everyone did not speak for a long time. Yun Chujiu touched her nose. Could it be that it was not possible?

After a while, the dumbfounded people seemed to have woken up from a dream and burst out with great joy.

Mei Li grinned and laughed loudly. "You tan girl! You have so many wicked ideas! Not Bad! Not Bad! Old Huang, I think this idea will work!"

"Yes, this idea is brilliant! If there are no special matters, one-third of the people can be on duty, just enough to cope with the normal three meals a day."

"There will definitely be no problems! When I think of having two days of rest, not only am I willing to cover a three-person job. I would be willing to take on five!"

"Yes, this way we can have time to cultivate properly. Let's see if those people still dare to look down on us!"

...

"Good! Very good. Very good! Little Jiu, you're such a smart child! No wonder you got the sect leader's reward." Elder Huang was very happy.

'With this, not only do we have the time to cultivate, but we also have more time to rest than any other department in the servant department. Over time, I don't believe that we still can't beat them.'

Yun Chujiu smiled mischievously. "Oh, everyone stop praising me. I just want to be able to slack off openly! Haha!"

When Yun Chujiu said this, everyone laughed as well. The atmosphere in the kitchen was extremely harmonious.

At that moment, Manager Ding walked in from outside. Everyone's laughter stopped abruptly, and the atmosphere became very subtle.

Manager Ding's face was gloomy as he glanced around. He snorted coldly and walked out.

"Old Huang, what kind of background does this Manager Ding have to make you so afraid of him?" Yun Chujiu asked curiously.

Old Huang sighed. "Our small temple really can't accommodate this great Buddha. Manager Ding's brother is Elder Qi's true disciple, Ding Lang. The status of a true disciple is quite high, so how can we afford to offend him?! Moreover, Elder Qi is an elder of our pill refining room, so we really can't afford to offend him."

Yun Chujiu was stunned and cursed in her heart. 'It's Elder Qi again?'

If it was another elder, it would be easier to handle. She used her status as the Little Ancestor that she had yet to settle down to suppress him. However, she did not see Elder Qi on the square that day, so he did not know her identity. It seemed that this matter had to be planned meticulously.

"Everyone, don't bother about him. Come, come, let's split up the groups first." Yun Chujiu greeted everyone warmly.

The atmosphere in the big kitchen became lively again. Everyone started to discuss the matter of the groups.

Very soon, Elder Huang divided everyone into three groups. He even very considerately divided the Yun siblings into one group. This way, they could have their rest time together.

In the beginning, everyone was still a little worried. The number of people had suddenly decreased by two-thirds. Whether the remaining people could handle it or not, this kind of worry soon disappeared. The potential of a person was endless. The people on duty worked very hard in order to win two days of rest and completed the work without any mistakes.

Thus, the Middle Peak kitchen set a precedent for the servants of the Spirit Radiance Sect.

One day of work , two days of rest. It was simply too nourishing, was it not?!

Gradually, the other servants departments discovered this matter.

The other five peaks' kitchens followed suit and began to take turns working. However, the other departments could not do it. Every kettle had its lid in those positions, and no one could replace each other. They could only look at the various peaks' kitchens with a face full of envy and hatred!

As expected, what Yun Chujiu said back then was true. 'Even if it was a bad place, once I, Yun Chujiu went, it would become a good place!'
