

The Yun Family's Ninth Child is an Imp! Chapter 1768

Yun chujiu pursed her lips when she heard the news. She was afraid that this was Jin Zhi's doing. There were many ways to avoid suspicion. Why did she have to give her daughter to me? !

Sure enough, Jin Zhi came over the next day in high spirits. "Little Jiu! Little Jiu! This young lady will follow you back to the Tian Yuan continent. Are you relieved now? Our Jin family doesn't have any ambitions."

"Pui! You say it nicely, but it's just that our strength isn't enough! However, your Jin family can also rest assured. My Beautiful Mother will definitely not let you have the opportunity to plot against us!" Yun Chujiu said bluntly.

There was no forever friend, only common interests. Jin Mantang's generation didn't rebel, but it didn't mean that his son, his grandson, and his great-grandson wouldn't rebel. Therefore, the restrictions still had to be put in place.

Of course, the Jin family had made a great contribution, so the rewards had to be given. Otherwise, people would be disappointed. However, they could not allow it to develop without restrictions.

"Little Jiu, you are right. It is better to let the Sheng nv knock on the Jin family's door, so that some people will not be greedy enough to swallow an elephant," Jin Zhi said through the recent events, she had long changed from an arrogant and overbearing young miss to a much more transparent person. Of course, compared to Yun Chujiu, she only had one point of understanding. Yun Chujiu had a 360 degree of understanding without any blind spots.

“Aiyo, I didn’t expect that you, Beauty Jin Zhi, would become so much smarter!”! Was this incident also your bad idea? Do you really want to go back to Tian Yuan Academy with me? Aren’t you afraid of being ostracized as a person from the Netherworld Continent?”Yun chujiu glanced at Jin Zhi and said.

Jin Zhi nodded. “This is the result of my careful consideration. I have always been too successful. It’s not a bad thing to suffer a little. Besides, don’t I Still Have you to protect me? What’s there to be afraid of?!”

Yun Chujiu looked at Jin Zhi in a new light. Some people were not stupid, nor did they not have the courage to change. It was just that they did not have the right opportunity.

“Alright, since your Jin family took the initiative to give me a hostage, I am naturally willing to accept it!”! Beauty Jin Zhi, don’t worry. Follow me and I promise to let you have a good life. I will also find you a good husband! “Hehe!”Yun Chujiu said with a smile.

If an ordinary girl heard Yun Chujiu’s joke, her face would definitely turn red. However, Jin Zhi also said with a smile, “This is what you said. If you don’t help me find my good husband, I will not forgive you!”

“Aiyo, Jin Zhi, you are in love with a beauty!”Yun Chujiu said exaggeratedly with a grimace.

“You, you shut up!” No matter how generous Jin Zhi was, she could not stand Yun Chujiu’s teasing. The two of them got into a fight.

Yun chujiu was very happy. She felt a long-lost friendship from Jin Zhi. True friendship was like this. It would not be belittled because of the other party’s high status, and it would not be bossy because of the other party’s low status, only a friendship built on the same spiritual status would be stronger.

Another three days passed, and it was finally time to part.

Sheng NV’s face was full of tears. She no longer wore the veil, because Yun chujiu said to her, “Mother, you wear the veil to make everyone feel mysterious, but you have trapped yourself behind this veil! “Mother, I believe in you. With your ability, you can definitely rule the netherworld. So, it’s fine if you don’t want this veil!”
