

## The Yun Family's Ninth Child is an Imp! Chapter 1776

Yun Chujiu was stunned. That's right, the heaven's Pride Palace couldn't use talismans, so why could she use sudden rupture talismans? There must be a problem!

"Xiao Hei, I didn't expect you to be so SMART!" Yun chujiu complimented.

Xiao Heiniaio stared at her with his green bean-like eyes and said, "Master, since you've admitted that I'm smart, don't call me a stupid bird! It's a blow to my confidence, okay? !"

Yun chujiu pouted. "Alright, if your IQ is always on the line, I won't call you a stupid bird in the future!"

After comforting Xiao Heiniaio, Yun chujiu began to think about the sudden rupture talisman.

The Pride of Heaven Palace, which originally banned talisman seals, could actually use the sudden rupture talisman. What did this mean? Yun chujiu was slightly excited. This was definitely an opportunity to solve the current predicament. Calm down! Calm down! Yun chujiu forced herself to calm down. She finally thought of two possibilities.

One was that this place was really not in the Proud Heaven Palace, so it was not restricted by the rules of the Proud Heaven Palace. The other was that this place was still inside the Proud Heaven Palace, but this place was an illusion!

Yun Chujiu recalled the time when she saw the Proud Heaven Palace. She once complained that this place should not be called the Proud Heaven Palace at all. This was a thatched cottage, and it had not been lived in for many years!

Could it be that this place could be transformed according to People's imagination?

Yun chujiu suddenly stood up. She put the three Xiao Heiniaos into the spiritual beast bag and began to imagine that she was in the dormitory.

Yun chujiu began to imagine without any distracting thoughts. When she opened her eyes again, sure enough, Yun chujiu found that she was in the dormitory. Even the number of spiritual fruits on the table that she deliberately imagined was exactly the same.

Yun chujiu could not help but sneer. It was really like a flower blooming with one thought and a flower falling with one thought! In a normal illusion, as long as the person who was trapped in the array realized that they were trapped in an illusion, they would be able to escape. This illusion actually only changed according to the structure of the person's consciousness and did not break out of the array. This illusion was really brilliant!

Then, the problem came. How exactly could she break this illusion?

Yun Chujiu racked her brains and could not come up with a good idea. Because all the scenarios in her mind could be created by the illusion. Therefore, it was a dead cycle. Even if she imagined that she could break the illusion, it would be fake!

Yun chujiu thought about it and realized that there was only one way. That was to find the eye of the array. Only by destroying the eye of the array could she break the illusion. However, where was the eye of the array?

Yun chujiu thought for a long time and gave up on the idea of finding the core of the formation, because the hope was too slim.

She thought of the most direct and stupidest method, and that was to use up all the spiritual stones in the core of the formation!

Yun chujiu curled the corners of her lips. Aren't you able to create a situation? I'll tire you to death! In any case, sister's spiritual sense is very strong. I want to see if it's my spiritual sense that is strong, or if you have more spiritual stones!

After eating and drinking her fill, Yun Chujiu had a good sleep. When she woke up the next day, she sat down cross-legged on the ground and started to imagine the scene in her mind.

Yun chujiu started to imagine all kinds of scenarios. The scene in front of her kept changing. Yun chujiu found a problem. The weirder the situation, the slower it was, this meant that the weirder the situation, the more spiritual stones would be consumed.

The guy's eyes lit up and he immediately had an idea. This guy was really mean. He started to fantasize about rocket launches, Star Wars, Zombie Wars, comets hitting the earth..
