

The Yun Family's Ninth Child is an Imp! Chapter 1793

The low-level sea beasts in the sea area were all shocked. Emma, what was going on?

How could those high-level sea beasts submit to that tiny human?

However, these low-level sea beasts didn't dare to go forward and seek death. Fortunately, those high-level sea beasts were all excited and wanted to dominate the sea, so they didn't pay attention to these low-level sea beasts.

A few hours later, Yun Chujiu led the newly-made "Little Nine Sea Beast Army" into the territory of the saber-toothed wild whale.

Yun Chujiu felt that the saber-toothed wild whale was quite good at enjoying life. The scenery of its nest was very pleasant. There were all kinds of colorful coral reefs competing with each other, and some small fish with sharp mouths poked their heads out from the gaps.

The sea water churned violently, and the saber-toothed wild whale rushed over angrily. However, when it saw the scene in front of it, it couldn't help but be shocked, angry, and a little afraid. It didn't understand why these high-level sea beasts would unite together.

"Hey! Little Loach! Your Time of death has come! Little Ones, go!" Yun Chujiu stood on the back of the golden-backed long-necked turtle and waved the military flag as she gave the order.

The reason why Yun Chujiu did not deceive the saber-toothed wild whale was because she felt that this saber-toothed wild whale had always been at the top of the food chain, and it was really difficult to deceive it.

Secondly, if the saber-toothed wild whale was contracted, those high-level sea beasts would definitely be dissatisfied. It was really not worth the loss. Therefore, Yun Chujiu did not waste time talking to the saber-toothed wild whale and directly ordered the sea beasts to start attacking.

The high-level sea beasts had been hunted down by the saber-toothed savage whale many times in the past. Now that they finally had a chance to kill it, they naturally would not let it go. Each and every one of them was as if they had been injected with stimulants as they fought with all their might.

Although the saber-toothed savage whale's level was higher than these high-level sea beasts, its fierce tiger was inferior to a pack of wolves. No matter how powerful it was, it could not defeat so many high-level sea beasts. Moreover, there was also a shameless sneak attacker.

Yun chujiu secretly shot out a small purple lightning, specifically targeting the vulnerable parts of the scimitar-toothed savage whale's body.

When the golden-backed long-necked turtle saw Yun chujiu's mischievous behavior, it could not help but tighten its anus. This little girl was really too mean. Fortunately, it made the right choice, or else it would have died a terrible death.

After more than an hour, the miserable scimitar-toothed savage whale was bitten until it was covered in cuts and bruises, and it died.

Yun chujiu asked the golden-backed long-necked turtle to take out the inner core of the saber-toothed whale. Then, she divided it into thirty-eight equal portions with a large kitchen knife and gave them to the high-level sea beasts.

Yun chujiu pointed at the huge corpse of the saber-toothed whale and said, "Little ones, it's time for you to enjoy the delicacies! Enjoy them to your heart's content!"

When the high-level sea beasts heard Yun Chujiu's words, they immediately rushed over. The meat of the saber-toothed whale was a great tonic for them. Naturally, they couldn't wait for it.

The feast lasted for almost half a day. The high-level sea beasts all burped after eating, which made them even more convinced of Yun Chujiu.

Yun Chujiu jumped onto the back of the golden-backed long-necked turtle and said in an awe-inspiring manner, "Are you all full? Then let's hold the coronation ceremony! It just so happens that this emperor will also divide some territory for you."

This shameless person directly called himself this emperor.

Those high-level sea beasts were also full now. Each and every one of them acted as if they were injected with stimulants. They began to act according to Yun Chujiu's instructions.

Those low-level sea beasts were really unlucky. They were all chased to the same place by those high-level sea beasts. The low-level sea beasts didn't know what had happened, and they were so scared that they were trembling.
