

The Yun Family's Ninth Child is an Imp! Chapter 1805

"Brothers, don't talk nonsense with her. Let's kill her first!" One of them said as he attacked Yun Chujiu with his spiritual power. The other two also attacked.

Yun Chujiu quickly commanded the chopping board to fly up and down to dodge. Fortunately, the space in the sky was big enough. Otherwise, Yun Chujiu would definitely be hit.

However, even so, Yun Chujiu could not hold on any longer.

The three men in black formed a triangle. It was difficult for Yun Chujiu to escape. She tried the same trick again, wanting to use the superior-grade burst talisman to attack the three men again. However, the three men did not fall for the trick after learning from the previous experience.

The three men only used their spiritual power to attack and did not approach Yun Chujiu at all. They did not give Yun Chujiu the chance to use the talisman at all.

Yun Chujiu was burning with anxiety. It was not a good idea to continue like this. What should she do?

Yun Chujiu was a little distracted, so she dodged a little slower. One of the people attacked her with his spiritual power.

Fortunately, Yun Chujiu had a lot of defensive spiritual weapons on her. Dozens of them were broken, and she finally blocked the attack.

This guy was in great pain. Damn it, I spent a lot of effort to get this. I'm not done with you!

However, this fellow also thought of a way to fly into the fire.

F*ck! Anyway, these were all extorted. Let's just waste them and kill one after another!

Thinking of this, Yun Chujiu rushed towards one of the people!

That person was stunned. Has This Little Girl Gone Mad? She came to seek her own death? That person attacked Yun chujiu with a spiritual energy attack. Yun Chujiu did not dodge at all and took the spiritual energy attack head-on. The supreme-grade sudden rupture talisman in her hand also smashed towards that person.

The other two saw the situation and rushed over to pincer attack. Yun chujiu didn't Dodge and threw another stack of supreme-grade burst talismans at that person just now.

That person let out a miserable cry and even his flying sword was blasted into pieces!

Of course, Yun Chujiu also suffered heavy losses. The defensive spirit tools on her body were shattered into several hundred pieces in an instant.

Yun Chujiu's pained eyebrows stood up. She turned around and rushed towards the other two people. "Bastard! Compensate my spirit tools! I'll blow you all to death!"

Although Dean Huangfu and the others were feeling heavy-hearted at this moment, the corners of their eyes twitched when they heard Yun Chujiu's words. Little Jiu, are you focusing on the wrong thing? At this time, you're still a money-grubber?

The two men in black in the air were also a little confused when they heard Yun Chujiu's lines. However, they knew Yun Chujiu's path, so they did not dare to be careless. They attacked Yun chujiu while dodging, not giving Yun chujiu the chance to use the talisman.

As they fought, they heard Yun chujiu curse, "Damn it! Why are there only two sudden rupture talismans left?"

The two men in black were delighted. Although the sudden rupture talismans were powerful, they would only cause a slight injury to them at most.

The two men looked at each other and rushed towards Yun chujiu at the same time.

Yun Chujiu's eyes deepened. Good timing, good timing, they really came croaking!

When the two of them were less than ten feet away from Yun chujiu, Yun Chujiu's chopping board suddenly jumped up and threw the superior-grade burst talisman at the two of them.

The two men in black thought that it was just a burst talisman, so they did not care. They did not dodge at all, so they were in a tragic situation!

How was it two pieces? There were more than 200 pieces!

After a few explosions, the two men in black were also blasted into pieces.

Fan Zhen originally did not take Yun chujiu seriously, but in less than an hour, he actually lost six of his men! It was really a great humiliation!
