

The Yun Family's Ninth Child is an Imp! Chapter 1811

Fortunately, the dry old man had recovered a little after taking a breather just now. He had struggled with all his might to hold on until now. However, almost all of them were wounded, and some of them were on the verge of death.

“Damn it! You are really courting death! To tell you the truth, your bastard leader has already been killed by me. If you don’t want to die, quickly surrender!” Yun Chujiu’s voice came first.

When the seven people heard Yun Chujiu’s words, they could not help but be shocked. The leader and the seven brothers had been killed? How was this possible? It must be this stinky girl’s nonsense!

However, where did the leader and the Seven Brothers Go? It was probably this stinky girl’s trick that lured them to another place.

Although the seven people were puzzled, they did not care too much. Even if the leader and the seven brothers were lured to another place, the seven of them were enough to deal with these people!

After Yun Chujiu and di Beiming joined the battle group, although the situation was slightly better, the situation was still leaning towards the black-robed man’s side. This was because an Feng and the others were already seriously injured, and their combat strength had been greatly reduced.

Yun chujiu knew that now was not the time to hide things. She took out a lot of heaven-grade blood coagulation pills from her storage ring and threw them to an Feng and the others.

After an Feng and the others consumed the pills, their internal injuries and wounds healed quickly, and a part of their combat strength was restored. The battle situation between the two sides was very anxious.

At this moment, a demonic voice was heard saying, “F * ck! How Dare You Bully My Little Sister Jiu! You’re really courting death! Huahua, Jiaojiao, go!”

Yun chujiu saw that it was Xue Wuji who came and could not help but be very happy. “Brother Wuji, you came at the right time. Quickly use your spiritual power skull to smash these bastards to death!”

Xue Wuji raised his hand, and a huge spiritual power skull smashed towards a black-clothed person. That black-clothed person had a dumbfounded expression. weren’t spiritual power materializing into the shape of a beast? How could this red-clothed man materialize into a skull? ! He, he actually had a wind spirit root? !

Although the situation had not fallen into a disadvantageous position, the black-clothed person had an ominous premonition in his heart. These people were really too strange!

Although the little girl’s spiritual power was not high, she had countless defensive spirit tools and countless sudden cracking talismans. She had also encountered an ice spirit root and a wind spirit root, how could such a strong person appear on such a low-level continent like the Tian Yuan continent?

With the addition of Xue Wuji and the other two, Yun Chujiu had a slight advantage. However, she was not confident in taking down seven people. The best result would only be to chase seven people away.

At this moment, another person came!

The person who came had a cold expression, and there was a trace of gloominess in his eyes. It was Lan Luochen!

Although di beiming and Xue Wuji did not like Lan Luochen, they were still very happy to see him. With him here, the Tianyuan Academy's side had the complete advantage.

Lan Luochen did not say anything and directly joined the battle.

At this moment, di beiming, Xue Wuji, and Lan Luochen were each dealing with a black-robed man. The dried-up old man and dean Huangfu were dealing with a black-robed man, while the remaining dark wind and the others were working together to deal with the remaining three black-robed men.

Although the level of the black-robed man's spirit energy was higher than di beiming and the others, after all, a lot of spirit energy had been consumed. Hence, Di beiming and the other two had the upper hand.

Yun chujia blinked her eyes. She had to be more strategic. Thus, she said to Xue Wuji, "Brother Wuji, leave this scum to me. You and my Prince Charming will work together and end this quickly!"
